What is the approximate age of your mattress and pillow _____

What is your preferred sleeping position? _____

What are your hobbies? Does your condition prevent you from doing these?

INFORMED CONSENT

Chiropractic, as well as other types of health care, is associated with potential risks in the delivery of treatment. Therefore, it is necessary to inform the patient of such risks prior to initiating care. While chiropractic treatment is remarkably safe, you need to be informed about the potential risks related to your care to allow you to be fully informed in consenting to treatment.

POTTER CHIROPRACTIC & WELLNESS CENTER uses trained personnel to assist with portions of your consultation, examination, x-rays, physical therapy application, physiotherapy application, exercise instruction, etc. Occasionally, when your chiropractor is unavailable, another qualified doctor of chiropractic may treat you.

SPECIFIC RISK POSSIBILITIES ASSOCIATED WITH CHIROPRACTIC CARE

1. Stroke. Stroke is the most serious complication of chiropractic treatment. It is, on rare occasions, due to injury of the vertebral artery caused by a cervical spine adjustment or manipulation and when occurs may cause temporary or permanent brain dysfunction. On extremely rare occasions death occurs. Because the vertebral arteries, which supply the brain with blood, are located within the bones of the cervical spine, cervical treatment poses a small risk. The chances of the occurring are estimated at 1 per 400,000 treatments to 1 per 10,000,000 treatments. The most recent studies (Journal of the CCA, Vol. 37, No.2 June 1993) estimate that the incidence of this type of stroke is one in every 3,000,000 upper cervical adjustments.
2. Soreness. Chiropractic adjustments and physical therapy procedures are sometimes accompanied by post treatment soreness. This is a normal and acceptable accompanying response to chiropractic care. While it is not generally dangerous, please advise your doctor of chiropractic if you experience soreness or discomfort
3. Soft tissue injury. Occasionally chiropractic treatment may aggravate a disc injury or cause other minor joint, ligament, tendon or other soft tissue injury.
4. Rib injury. Manual adjustments to the thoracic spine, in rare cases, may cause rib injury or fracture. Precautions such as pre-adjustment x-rays are taken for cases considered at risk. Treatment is performed carefully to minimize such risk.
5. Physiotherapy burns. Heat generated by physiotherapy modalities such as electrical muscle stimulation, ultrasound and heat therapy may cause minor burns to the skin. These are rare, but should be reported to your doctor of chiropractic or staff if they occur.
6. Other problems. There are occasionally other types of side effects associated with chiropractic care. While these are rare, they should be reported to your doctor of chiropractic or staff promptly.
7. Chiropractic is a system of health care delivery and therefore, as with any health care delivery system, we cannot promise a cure for any symptom, condition, or disease as a result of treatment in this office. An attempt to provide the very best care is our goal and if the results are not acceptable, we will refer you to another provider who we feel will assist your situation.

If you have any questions concerning the above, please ask your doctor of chiropractic. When you have full understanding and consent to care provided, please print your name, sign and date below.

Having carefully read and initialed the above, I hereby give my informed consent to have chiropractic treatment administered.

Patients Name _____

Patient's Signature _____ **Date** _____

PROTECTED HEALTH INFORMATION CONSENT FORM (HIPPA)

We want you to know how your Protected Health Information (PHI) is going to be used in this office and your rights concerning those records. Before we will begin any health care operations we must require you to read and sign this consent form stating that you understand and agree with how your records will be used. If you would like to have a more detailed account of our policies and procedures concerning the privacy of your PHI we encourage you ask.

1. The patient understands and agrees to allow this office to use their PHI for the purpose of treatment, payment, healthcare operations, massage and

coordination of care as an example. The patient agrees to allow this chiropractic office to submit requested PHI to the health insurance company provided to us by the patient for the purpose of payment. Be assured that this office will limit the release of all PHI to the minimum need for what the insurance companies require for payment.

2. The patient has the right to examine and obtain a copy of his or her own health records at any time and request corrections. The patient may request to know what disclosures have been made and submit in writing any further restrictions on the use of their PHI. Our office is not obligated to agree to those restrictions.
3. A patient's written consent need only be obtained one time for all subsequent care given the patient in this office
4. The patient may provide a written request to revoke consent at any time during care. This would not affect the use of those records for the care given prior to the written request to revoke consent but would apply to any care given after the request has been presented.
5. For your security and right to privacy, all staff has been trained in the area of patient record privacy and a privacy official has been designated to enforce those procedures in our office. We have taken all precautions that are known by this office to assure that your records are not readily available to those who do not need them.
6. Patients have the right to file a formal complaint with our privacy official about any possible violations of these policies and procedures.
7. If the patient refuses to sign this consent for the purpose of treatment, payment and health care operations, the chiropractic physician has the right to refuse to give care.
8. The patient understands and agrees to allow this office to use their name for newsletters (both mailed and emailed), birthday cards, patient testimonials, referrals, appointment reminder calls and/or mailings, reactivation calls and/or mailings, etc.

I have read and understand how my Protected Health Information will be used and I agree to these policies and procedures.
