

As Seen On **THE DOCTORS**

SOFTWAVE THERAPY

How does it work?

The same technology that is used to break up kidney stones is now used to increase circulation, break up scar tissue/calcifications and stimulate migration of stem cells and growth factors to injured areas. SoftWave Therapy - TRT OrthoGold 100 is an exciting, breakthrough option in the field of regenerative medicine. It is an advanced, effective, non-invasive and safe way to treat painful musculoskeletal conditions, degenerative conditions and chronic pain. All without needles, anesthesia, pain medication or expensive hospitalization.

PATENTED TECHNOLOGY

ACTIVATE RESIDENT STEM CELLS

STIMULATE HEALING NATURALLY

IMPROVED BLOOD FLOW

RELIEVE PAIN ACTIVATE STEM CELLS AND INCREASE HEALING

Thousands of patients throughout the country have experienced pain relief from SoftWave TRT Therapy's drug-free, non-invasive treatment!

6-8 Sessions to experience full and long-lasting results of SoftWave Therapy

Proven to Treat

Back Pain

Knee Pain

Shoulder Pain

Arm and Wrist Pain

Neck Pain

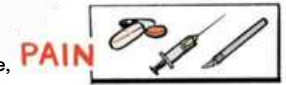

Foot Pain and Neuropathy

- Arthritis
- Sprains
- Muscle Strains
- Tendinitis
- Orthopaedic Injuries
- Sports Injuries
- Golf Elbow
- Tennis Elbow
- Knee Pain
- Plantar Fasciitis
- Shoulder Impingement
- Back Injuries

Affordable, Non-Invasive Solution To Pain

The three common treatments for pain are: Medication, Cortisone and Surgery, which are either ineffective, invasive, carry side effects or all three.

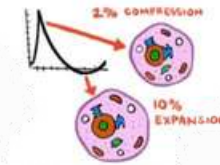

Non-invasive SoftWave technology offers better results and faster healing with little to no side effects.

Backed by 46 patents, SoftWave's same-day, 10 minute procedure uses super-sonic sound waves

to increase cell membrane permeability and recruit and release body's own repair cells,

thus activating our natural, innate healing mechanisms to provide lasting pain relief

FINALLY, STEM CELL OPTIONS THAT WON'T COST YOU AN ARM AND A LEG

Improved circulation with SoftWave therapy

14 Days after surgery without SoftWave therapy

14 Days after surgery WITH SoftWave therapy

OUR TREATMENT COSTS ROUGHLY 90% LESS THAN SURGERIES OR STEM CELL INJECTIONS
