TERMS OF ACCEPTANCE

When a patient seeks chiropractic care and we accept such a patient for care, it is essential for both to be working towards the same objective. Chiropractic has only one goal. It is only when the patient understands both the objective and the method that they will be able to attain it. This will prevent any confusion or disappointment.

An adjustment is the specific application of forces to facilitate the body's correction of vertebral subluxation. Our chiropractic method of correction is by specific adjustments to the spine.

Health is a state of optimal physical, mental and social well being, not merely the absence of disease.

Vertebral Subluxation is a misalignment of one or more of the joints of the body. This can cause pain or alteration of nerve function and interference of the transmission of nerve impulses, lessening the body's innate ability to maintain maximum health.

We do not offer to diagnose or treat any disease or condition other than vertebral subluxation. However, if during the course of a chiropractic spinal evaluation, we encounter non-chiropractic or unusual findings, we will advise you. If you desire advice, diagnosis or treatment for those findings, we will recommend that you seek the services of a health care provider who specializes in that area. Regardless of what the disease is called, we do not offer to treat it. Nor do we offer advice regarding treatment prescribed by others. **OUR ONLY PRACTICE OBJECTIVE** is to eliminate a major interference to the expression of the body's innate wisdom. Our only method is specific adjusting to correct vertebral subluxation.

I have read and fully understand the above statement. Any questions regarding the doctor's objectives pertaining to my care in this office have been answered to my complete satisfaction. I therefore accept chiropractic care on this basis.

PEDIATRIC STATEMENT OF HEALTH CHALLENGE

Name: _____

Date: _____

Throughout your child's exam, Dr. Will will be searching for one thing: the CAUSE of your health challenge. Chiropractic wellness care seeks to find the causes of a health challenge, rather than simply trying to artificially alleviate the symptoms through adjustments. The following questions are vital to finding the best possible solution to your child's individual health challenge. As a mother or father, no one knows your child better than you do. Please take your time answering these questions, and be sure to include anything that you feel may be related to your child's health challenge.

Please answer these questions on a separate page and submit to Synergy Chiropractic at least 24 hours prior to your child's scheduled examination.

QUESTIONS

1. What is your child's present health challenge?
2. Do you feel your child's present diet, environment and/or age is related to his/her present health challenge? If so, please explain.

4. How do you feel your child's present health challenge affects his/her overall health and ability to experience an optimal quality of life?
5. How would you describe your child's overall health prior to his/her present health challenge?
6. Other than the present issue you have already noted, please list any and all concerns regarding your child's overall health.

Details of the Chief Complaint:

1. When did it start?
2. What do you believe caused your child's present health challenge?
3. How persistent are your child's current complaints?
4. What makes it better/worse?
5. What have you attempted to improve the condition?
6. What other practitioners have you brought your child to for this condition?
7. Who is your child's pediatrician?
8. What is the pediatrician's plan for your child to experience optimal health and wellness?
