INFORMED CONSENT TO TREATMENT

I do hereby give my consent to conservative, noninvasive treatment to the joints and soft tissues. I understand that treatments in this office may consist of chiropractic adjustments, chiropractic manipulations, therapeutic and rehabilitative exercise, electrical therapy, ultra sound therapy, 'muscle/soft tissue release, diagnostic testing, and other therapeutic modalities may also be used as listed below by Dr. Kevin Allen, D.C. on me (or the patient named below for whom I am legally responsible).

- * Decompression Therapy
- * Fascia/Percussion Therapy
- * Acupuncture
- * Ultrasound
- * EB Pro Ion Cleanse Therapy

- * Nutritional Recommendations
- * Interferential Muscular Stimulation
- * Rehabilitation Exercises
- * Kinesio-Taping Methods
- * X-ray imaging

I understand that patient care takes place in an open area. Any conversations I have with the doctor could be overheard by other patients. If I have a confidential matter I wish to discuss, time will be scheduled for me to speak to the doctor privately.

Although spinal manipulation/adjustment is considered to be one of the safest, most effective treatments for musculoskeletal problems, I am aware that there are possible risks and complications associated with these procedures as follows:

<u>Soreness:</u> Like exercise, it is common to experience muscle soreness in the first few treatments. In some cases, symptoms may get worse for a short period before they get better.

Dizziness: Temporary symptoms like dizziness, headache, and nausea can occur but are relatively rare.

<u>Fractures/Joint Injury:</u> In isolated cases underlying deformities or pathologies (ie: osteoporosis) may render the patient susceptible to injury. When osteoporosis, degenerative disc, or other abnormalities are detected, this office will proceed with extra caution.

Stroke: Strokes from chiropractic adjustments are extremely rare. I am aware that stroke occurs once in 1-10 million adjustments.

If non-chiropractic or unusual findings are encountered, I will be referred to another healthcare provider.

I understand that there are beneficial effects associated with the treatment procedures used in this office, however, as with any medical procedure or therapy, there is no certainty that I will achieve these benefits. I agree to the use of these procedures. Reasonable alternatives to these procedures include rest, home applications of therapy, prescription or over-the-counter medications, exercises and possible surgery.

PROTECTED HEALTH INFORMATION (PHI)

I understand this office cannot release my PHI without my written consent and cannot be shared with anyone else unless I give prior written authorization. Occasionally my PHI could be overheard by other patients in the office. I understand I can request a copy of my records. My PHI may be shared in consultation with another healthcare provider. My PHI is required for billing and payments for and by third party payers. A full HIPAA manual is available to me to review in this office, at any time. All staff have been trained in the importance of patient record privacy.

PAYMENTS, INSURANCE & IDENTIFICATION

I understand: I am fully responsible for all fees for services and goods. I request payment from my insurance company to be made to this office. I am responsible for all deductibles, copayments and any charges not covered by my insurance company. All payments are due at time of service. My insurance is billed by this office as a courtesy to me and the benefits they quote are not a guarantee of payment. Any outstanding unpaid balance on my account may be turned over to a collection agency and I am further responsible for all costs and fees for such. This office will keep a copy of my insurance card and drivers license which will be used strictly for insurance and identification purposes.
