RASSEL-DAIGNEAULT

PATIENT APPLICATION FORM: CHILD

WELCOME and THANK YOU for trusting us with your child/children applying as patient(s) in our clinic. We are a very unique team specializing in researched, evidence-based, spinal pediatric adjusting and postural rehabilitation that has helped infants, young children, and even teenagers with early onset to advanced spinal distortion and injuries known to cause developmental and lifelong health problems. Because of this specialized approach, we may not accept your child as a patient until we are absolutely certain we know the cause of their condition; perform the necessary tests to determine the optimal program of correction, and we are completely confident you and your child place their health as a TOP PRIORITY. At that time we will make specific recommendations. Thank you again for giving your child the opportunity to apply as a patient.

DATE COMPLETED	

Insurance

We may accept assignment of insurance benefits. By signing this policy, you agree to assign your insurance benefits to this clinic. In cases where benefits are not assignable or in any case where your benefit is processed directly to you regardless of assignment, you agree to submit any payments received along with the explanation of benefits to this clinic within 10 days of receipt unless you have paid for the services represented by said payment in full at the time of service. In no case will an assignment alleviate you of your obligation for payment of services received.

Your insurance plan is a contract between you and your insurance company. This clinic is not a party to that contract and therefore cannot modify the terms of that contract. Payment for treatment you receive from this clinic is your responsibility whether your insurance company pays or not. We cannot bill your insurance company unless you provide us with the necessary billing information, assign your benefits to this clinic and agree to permit us to release the necessary medical information required to secure payment. In the event we do accept assignment of benefits we require that you provide a credit card with authorization to bill that account any balance or make other payment arrangements. We will make every effort to ensure that your insurance carrier properly processes your services for payment. In some circumstances we may require your assistance. If your insurance company has not paid your account in full within 60 days and you refuse to assist us in dealing with your carrier, the balance will be automatically be transferred to your credit card or the extended payment plan.

NOTE: Please be aware that some, and perhaps all, of the services provided may be non-covered services and not considered reasonable and necessary under your insurance program. If you are unsure as to the nature of the service you are receiving, please ask your doctor. For coverage information, it is your responsibility to review your benefit contract.

ITEMIZED RECEIPTS, aka. "SUPERBILLS"

Our fees and charges are based on the cost of doing business and providing patients with the highest quality of care possible. This office does not participate with any insurance provider or accept such an assignment. Patients are responsible for payment of any services provided. You will be given a receipt with a description of services received, more commonly referred as a "superbill", along with the related charges that you, in turn, can submit to your own insurance company for possible reimbursement, as well as retain for your personal records.

DECLARATION

I clearly understand that all insurance coverage, whether accident, work related, or general coverage is an arrangement between my insurance carrier and myself. If this office chooses to bill any services to my insurance carrier that they are performing these services are strictly as a convenience to me. The doctor's office will provide any necessary reports or required information to aid in insurance reimbursement of services, but I understand that insurance carriers may deny my claims and that I am ultimately responsible for any unpaid balances. Any monies received will be credited to my account.

I understand there could be some services that my insurance company deservices? Yes No	oes not cover, if this is the case are you willing to pay for these

GENERAL SYMPTOMS CHART

Please use the following notations on the figures below to indicate the type and location of your child's symptoms, as it relates to the purpose of your visit today.

A = ACHE G = STABBING N = NUMBNESS B = BURNING M = SPASMS T = TINGLING P = PINS & NEEDLES F = STIFFNESS O = OTHER

If you marked "O" for Other on any part, please explain below:

Health Conditions

Your spine is the foundation of health and core strength in your body. Shifts in the vertebrae or sections of the spine will spread ultimately causing weakness and distortion to ALL the areas of the spine. These distortions are reflected in abnormal posture. Research shows abnormal posture leads to chronic pain, disease and possibly a shortened life span.¹ Please answer the following questions accurately so we may determine the full extent of your child's condition.

HISTORY OF T	'RAUMA
