She works with clients in her private practice and facilitates workshops throughout the world.**

Brennan Healing Science® is an enlightening system of energy work that combines hands-on healing techniques with spiritual and psychological processes, touching every aspect of your life.

Based on the living dynamics of our human energy-consciousness system and its relationship to the greater world of which we all are intimately a part, Brennan Healing Science can help transform your life into the balanced, enlightening experience of mystery that you've always wanted it to be.

This workshop is designed to give you a thorough and experiential introduction to the transformative work of Brennan Healing Science, and will take place on Saturday, June 4 (9AM–6PM), and Sunday, June 5 (9:30AM–4:30PM).

The format of this workshop will include lectures, healing demonstrations, guided exercises and meditations, hands-on healing techniques, practice healings and self-healing exercises.

By joining us, you will be introduced to your ability to give hands-on healings to others, as well as opening your latent ability to perceive the human energy field. This is a rare opportunity to step into an expanded view of life, where we see that we are more than just our physical bodies.

*We are beings of energy and consciousness!*

These teachings on human energy and consciousness, health, healing, and self-awareness are at the cutting edge of human development.

Come experience this weekend and return to your life renewed, openhearted and transformed!
