Veterinary Referral Request for Adjustment

Referral Guidelines

1. Your clinic listed below has requested that Dr. Rhonda Parker, Texas licensed Chiropractor (who is trained to adjust animals) provide the animal(s), also listed below, with adjustments. She completed her AVCA approved and required training from Parker Animal Chiropractic Program in Dallas, Texas and is also certified and held to a higher standard by the American Veterinary Chiropractic Association (AVCA).
2. Texas state law requires licensed Chiropractors to obtain a referral from an animal's primary Veterinarian prior to providing any manipulation. Dr. Parker is NOT a licensed veterinarian and therefore understands that a manipulation/adjustment is not traditional Veterinary care.
3. Dr. Parker is licensed in the state of Texas as a Doctor of Chiropractic with license number #10404 as of April 2006.
4. Please fill out this form and email to parkerwellness@gmail.com or fax to 512-852-4700.
5. Let us know which you prefer. Check one of the following:

Please do not contact me, I will request information if I feel I need it in the future.

Please send me initial examination information by: (circle one) EMAIL FAX

I would like to collaborate with Dr. Parker on this patient's care.
