

SPECIAL REPORT on Arthritis, Degenerative Disk Disease, etc.

FOR THOSE WHO EXPECT CHIROPRACTIC TO BE ABOUT MERELY BAD BACKS AND NECKS, this can be confusing. So, *please*, let me unconfuse you, from the start.

Chiropractic is NOT the treatment of back and neck pain. It is NOT the treatment of anything. That's right, as a (real) chiropractor, I do not treat anything, including bad backs and necks. I do not treat heart and/or circulatory conditions, but people can get well, here, anyway.

So... if Chiropractic is not a treatment, *what is it?* It is the PURSUIT OF HEALTH, through the correction of interference to the brain and nervous system, what we call Vertebral Subluxation Complex (VSC), by chiropractic adjustments, by hand, to the spine, **allowing the body and mind to heal, to function at a higher level.**

A lot of people get arthritic problems. Very common. And some have them for decades, long enough to assume that *"that's the way I am."* Your (medical) doctor probably agrees. If it's bad enough, you have an orthopedist or rheumatologist, who surely agrees.

What DO these medical geniuses do? First, your primary doctor will throw one or two or three drugs at you. If one doesn't work, they'll "try" another. (*This is science?*) If you, or the doctor become too frustrated, off to the specialist, the orthopedist or maybe the rheumatologist. He or she will put you through a bunch of tests, and come up with a diagnosis. A diagnosis is just a name, but you are made to believe that that diagnosis explains everything (it does not), and is the ultimate answer to your suffering. You're put on some drug to manage your symptoms, but you're still sick. When the side

effects of that drug become too much, you're switched to another drug. And you're still sick.

So far, no one has wondered WHY you are sick and suffering. No one had even given a thought to CAUSE, to why you have what they call "arthritis." No one has ever even considered how you can get well.

Here's some basic biology that evades your primary doc and your specialist... Your brain and nervous system controls and coordinates your entire musculoskeletal system. If there is interference to that control, one or more parts will not function properly, which is a state that we, in Chiropractic, refer to as "dis-ease," which leads to disease. Why not correct the interference, allowing the body to heal itself, naturally?

Here, at THE HARTE OF CHIROPRACTIC, I do not diagnose, nor do I treat anything. I correct interference, allowing your body to heal not just your digestive difficulties, but to allow your body, as a whole, to function better. Health.

"Physically, my arthritis is not bothering me. My leg pain has diminished substantially. Improved sense of well-being!" – Tief Jensen, Novato

"Arthritis in my hands improved. RLS (Restless Leg Syndrome) improved." – Margie Rand, San Rafael

"I've been Dr Donald Harte's patient since April 2010. To me and especially to my Mom who's been through decades of chronic pains, he's been a miracle doctor!!! I've never felt as physically healthy until I started getting

*my chiropractic adjustments w him, dealing w the "CAUSE" of subluxation. He IS VERY DIFFERENT from other chiropractors I've experienced from car accidents. At one point in my life, for how many years, I was always in some kind of discomfort to the point where I had to change the way I dealt w daily life. I've had chronic strains from personal injuries, workers' comp (repetitive syndrome-tendonitis), and from car accidents. Through various treatments, seeing various doctors my tendonitis on both arms, my upper back, shoulders, neck, and left leg flare ups - the aches and pain subsided. But still I'd get flare ups from time to time, depending on what triggered it. I'd also experience migraines and tension headaches. Basically, I was told and felt like I had to LIVE w the aches and pains, take pain meds and muscle relaxants, and etc. Finally, I went back to the gym, 2 years later, I became a certified fitness trainer thinking maybe I can fix myself, since I've seen and tried everything. Then I met Dr Harte at my gym promoting his subluxation. I went in for full scan and examination, got the report quickly, which the report itself tells a big story - worth getting. I admit, I was a little skeptical, cause his treatment and examples of body scans is nothing like I've seen before, but for sure I wanted to check him out, because you never know. I'm so glad that I took the chance, because now I feel so much better physically and mentally than I've ever felt before meeting him. The first month I already felt the good changes happening. Within about 2-3 months I can feel the big difference, that by August I decided to bring my Mom in. My Mom needed some serious help w **her chronic back problems, degenerative discs, constant migraines and tension headaches** no one can do anything about except cortisone injections, other treatments, and again various meds, which cause other issues for her. Some of my gym clients has now been seeing Dr Harte as well and feeling like "thank God there is hope to feeling normal again". I urge anyone who thinks they have to live w all the aches and pains of any kind to give Dr Harte a chance. Like I tell everyone, I'd get rid of all my doctors, but cannot imagine getting rid of Dr Harte out of my health!!! Thanks for reading." - Jules Fulgentes, Novato*

Fine, you've read this report. **Now you have a clear choice.** You can continue to do what you're doing, or you can not only change the direction of your problems associated with arthritis, but you can change the entire course of your health, your life! How? Through (real) chiropractic care, I liberate your nervous system, *allowing* your body to heal itself, from the Inside-out, through gentle, specific, scientific chiropractic adjustments.

How do you start? How do you find out about your specific situation? We begin with an extensive history, an examination like you've never had before, three neurological scans, and digital spinal X-rays. Then, I spend a great deal of time analyzing your individual situation, and we sit down to discuss findings, and how you can get well.

All this... the history, the examination, the nerve scans, the X-rays and the Report of Findings, is normally \$1075, which is a gift right there. But, because you've taken the time to read this special report, and because you were referred by a Member of this practice, you save \$905. All this will cost you *only \$170*. Call me now, to set up a convenient time for your first visit. 415/460-6527. *"I will help you."* - Dr. D. Harte (D.C.)
