

Is your BACK PROBLEM also causing a HEALTH PROBLEM?

Subluxations (nerve interference) interrupt brain-body communication, creating dysfunction and diminished health.

You may have come in because you are experiencing...

BUT subluxations in your spine may also be affecting (A) or causing (B)

A		B	
C1-C3	Cranial Nerves Balance Co-ordination Ears/Nose/Throat Immune System Digestive System Autonomic Nerve System	Brain Sinus Vision Thyroid Eyes Jaw	Headaches/Migraines Colic/Excessive Crying Ear and Sinus Infections Difficulty Sleeping Low Energy/Fatigue Vertigo/Dizziness Balance/Coordination Trouble
			High Blood Pressure Allergies/Congestion Immune Deficiency Focus/Memory Issues Reflux TMJ/Jaw Pain
C4 - C7	Shoulders/Arms/Hands Inner Ear/Tonsils/Throat Metabolism Thyroid	Pain in Arms/Hands Ear and Sinus Infections Immune Deficiency Shoulder Pain and Weakness Numbness/Tingling in Arms/Hands	Stiffness Headaches/Migraines Poor Metabolism Allergies/Congestion
T1 - T3	Respiratory System Cardiac Function Oesophagus Upper GI Tract	Reflux Stiff Shoulders/Upper Back Difficulty breathing Heart and Blood Pressure Problems Pain, Numbness and Tingling in Arms/Hands	
T4 - T7	Liver Stomach Pancreas Spleen Gallbladder	Indigestion/Heartburn Stomach and Digestion Trouble Immune Deficiency Blood Sugar Problems	
T8 - T12	Adrenal Glands Kidneys Ureters Small Intestine Reproductive Organs	Excess Stress and Cortisol Chronic Fatigue Kidney Problems Bedwetting Gas Pain and Bloating	
L1 - COCCYX	Legs/Knees/Feet Large Intestine Bladder Ovaries/Uterus Prostate Gland	Hip and Leg Pain Hamstring Tightness Leg Cramps/Weakness Bladder Control Issues Pain, Numbness/Tingling in Leg/Knee/Foot	Disc Degeneration Constipation/Gas Diarrhoea

Chiropractic care improves spinal function to create clearer communication between the brain and the body to help your body heal and function better.
