 Address _____ City _____ State _____ Zip _____
 Occupation _____ Marital Status: M W D S Spouse/Partner Name _____ No. of Children _____
 Names of Children _____

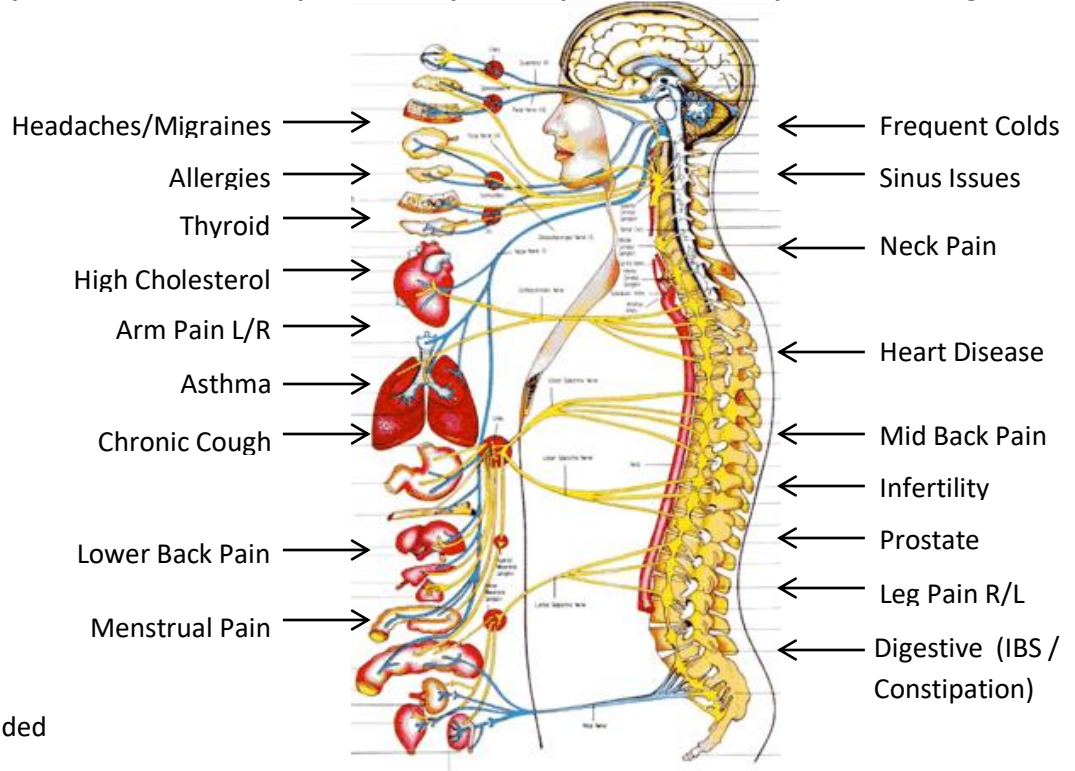

1. Most of our patients are referred to our office by family or friends. Who can we thank for referring you? _____
2. Science tells us your spine, like your teeth needs to be cared for regularly. When was your last spinal exam including x-rays? _____
3. How often do you get adjusted by a chiropractor? Frequently Only when I hurt Weekly Never
4. Over time spinal misalignments will cause arthritis and degeneration which result in grinding or cracking to be heard when you move your neck or back, as well as loss of nerve health. Do you hear these sounds when you move your head, neck or back? Yes No
5. If your spine is out of alignment for a long time it can make you feel like you need to stretch, twist, or crack your neck or back. Do you often feel the need to crack or pop your neck or back? Yes No
6. Poor posture leads to poor health and early death. How would you rate your posture? Poor 1 2 3 4 5 6 7 8 9 10 Excellent
7. Stress causes your spine to misalign and accelerates spinal damage. Rate your stress level. None 1 2 3 4 5 6 7 8 9 10 Intense
8. Prescription medications can cause various side effects, hide the severity of health problems, and hinder the body's ability to heal. What medications are you currently taking? (use back if necessary) _____
9. List surgeries you have had. _____
10. List vitamins/supplements you take. _____

11. Spinal health is vitally important to ensure you and your baby are healthy. Are you pregnant? Yes No
12. Improper sleeping positions cause spinal misalignment. What is your sleeping position? Back Stomach R. Side L. Side

13. Subluxation (misalignment) of your spine will lead to health problems in your body. Circle or list any health challenges you are experiencing.

Other: _____

Autoimmune: _____

14. Exercise Level?
 Never 1 2 3 4 5 6 7 8 9 10 Often
14. Are you? Right Handed Left Handed
15. Do you smoke? Yes No
16. Chiropractic Care is important to restore your health, are you committed to following the recommendations necessary to correct your problem? Yes No

The above information is true and accurate to the best of my knowledge.

ProActive Family Chiropractic
Informed Consent for Chiropractic Care

When a patient seeks chiropractic health care and we accept a patient for such care, it is essential for both of us to be working for the same objective. It is important that each patient understand both the objective(s) and the method(s) that will be used to attain this objective. This will prevent any confusion or disappointment. You have the right, as a patient, to be informed about the condition and the recommended care to be provided so that you make the decision whether or not to undergo chiropractic care after being advised of the known benefits, risks, and alternatives.

Chiropractic is a science, philosophy and art which concerns itself with the relationship between the spinal structure and the health of the nervous system. As chiropractors we understand that health is a state of optimal physical, mental, and social well-being, not merely the absence of disease or infirmity.

One disturbance to the nervous system is called a vertebral subluxation. This occurs when one or more of the 24 vertebra in the spinal column become misaligned and/or do not move properly. This causes an unhealthy change to nerve function and interference to the nervous system. This may result in pain and dysfunction or may be entirely asymptomatic.

Subluxations are corrected and/or reduced by a chiropractic adjustment. An adjustment is the specific application of force to correct and/or reduce vertebral subluxation. Our chiropractic method of correction is by specific adjustments to the spine. Adjustments are done by hand where the doctor will put pressure on the specific segment(s) of the spine to adjust the vertebrae into a better position.

If at the beginning or during the course of care we encounter a non-chiropractic or unusual findings, we will advise you of those findings and recommend some further testing or refer you out to another health care provider.

Chiropractic care has been proven to be very safe and effective. It is not unusual however, to be sore after your first few corrective adjustments. Although rare it is possible to suffer from other side effects; i.e. muscle spasms, stiffness, rib fracture, headache, dizziness and stroke.

All questions regarding the doctor's objective to my care in this office has been answered to my complete satisfaction. The benefits, risks and alternatives of chiropractic care have been explained to me to my satisfaction. I have read and fully understand the above statements and therefore accept chiropractic care on this basis.

Notice of Privacy Practices

This notice describes how health information about you is stored, may be used, and or disclosed.

How We Store Your Information: Patient information is stored here in the office on a secure server with no outside access. X-Rays images are also stored on the server and the hard copies of your file and X-Rays are stored here in our office. All storage is secure and meets or exceeds HIPPA requirements and regulations.

What We Do Not Do With Your Information: Information about your financial situation, medical conditions, and care that you provide to us in writing, via email, on the phone (including information left on voice mails), contained in or attached to applications, or directly or indirectly given to us, is held in strictest confidence.

We do not give out, exchange, barter, rent, sell, lend, or disseminate any information about our patients to anyone who receives our services. Know that any and all patient information is considered confidential, is restricted by law, or has been specifically restricted by a patient/client in a signed HIPAA consent form.

How We Do Use Your Information: Information is only used as is reasonably necessary to process your care, billing to an insurance company or to provide you with health or services which may require communication between Borio Chiropractic Health Center and health care providers, insurance companies, and other providers necessary to: verify your medical information is accurate; determine the type of medical supplies or any health care services you need including, but not limited to; or to obtain or purchase any type of medical supplies, devices, medications and insurance.

No Patients information and no identifying information (photos, addresses, phone numbers, contact information, last names or uniquely identifiable names) will ever be used without patient's express written advance permission.

PEDIATRIC CONSULTATION

Child's Name _____ Date _____

The majority of children have experienced hundreds of impacts that could cause vertebrae to become misaligned or subluxated. What we need to do now is discover several of the traumas your child has suffered.

What was your child's birth like? Easy/Stressful/Complicated/Surgical

How long was the entire labor? _____ How long did you actually push for? _____

Were you induced? Yes No Nerve block? Yes No C-Section? Yes No

Was there any pulling on the head? Yes No Mid-wife OBGYN Forceps or vacuum extraction

Science has shown that 47% of all children fall on their heads by the age of one and have at least 200 major falls by the age of 5 years old.

When was your child's most recent fall? _____

Was any care given? Yes No Was he/she checked by a chiropractor for subluxation? Yes No

And the fall before that? _____

Any care given? Yes No Chiropractic adjustment? Yes No

What sports or recreational activities does your child do? _____

When was your child's most recent stress, strain or injury while doing these activities? _____

Any care given? Yes No Chiropractic adjustment? Yes No

Has your child ever been involved in a motor vehicle accident as a passenger? Yes No

Briefly describe: When/Details? _____

Child seat? Yes No Seat belt? Yes No Front or back seat? Yes No

Was care given? Yes No Chiropractic adjustment? Yes No

This information is important. Thank you for explaining your child's history of accidents and traumas. This will help the doctor better understand where the spine is damaged or subluxated. What we need to do now is ask you a few questions regarding your child's current health concerns.

Does your child have any health concerns? Yes No What are they? _____

If so, how long have they been present for? _____

Subluxated vertebra will cause irritation to nerve fibers affecting organs and tissue leading to sickness and illness.

Are there any other conditions your child is or was experiencing? Yes No

How long and details? _____

Depending on where and the degree of the subluxated vertebra, nerve pressure can be constant or occasional.

How often does your child have this condition(s)? _____

Does your child take multi-vitamins regularly? Yes No What other supplements does your child take? _____

Please list all medications your child takes: _____
