Medical Grade 20 mmHg
Often accepted by insurance companies with a prescription, when used to treat medical conditions or as a part of recovery from surgery.*
**Depending on geography and insurance coverage*

Varicose Veins
Compression helps prevent blood clotting and varicose veins.

Diabetes
Manages venous insufficiencies, increases blood flow in the lower extremities, improves circulation, and alleviates pain.

Jēba™ compression products are made from premium, technical yarns in a variety of fashion-forward styles. These preventative, medical and therapeutic compression hosiery garments are scientifically designed to reduce fatigue, improve blood flow and tissue oxygenation, and optimize comfort. Jēba™ compression products also relieve swelling and pain related to diabetes, arthritis and varicose veins. Excellent to wear with work, casual, dress, travel or athletic attire.

- Long-Distance Travel**
Wear when traveling long distances by plane, train, bus or automobile.
- Leg Fatigue & Swelling**
Reduces swelling, leg aches and muscle fatigue.

- Recreation**
Enhances oxygen delivery to muscle tissue for greater endurance and faster recovery from activity.
- Office/Work**
Helps blood circulation during long periods of sitting or standing while at work.

- Circulation**
Improves circulation in the legs by increasing blood flow and oxygen delivery.
- Pregnancy**
Wear during pregnancy, when women are at higher risk for blood clotting and varicose veins.
