Family Health History

Please note any health issues that are present with family relations:
Brothers: ____
Sisters: ____
Father: ____
Mother: ____
Grandparents: ____

In this office we will perform a thorough assessment of your child's spine to locate areas of **Vertebral Subluxations**. Subluxations are the areas of dysfunction in the spine that interfere with the healthy connection between the nervous system and all the different parts of your body. This will result in compromised health and reduced energy to the tissue which that part of the nervous system supplies. Subluxations are caused by *physical, chemical* and *mental/emotional* stresses that overwhelm the nervous system and spine. Please complete the next page of this form to the best of your ability. This will help us to determine the causes of the subluxations we may find.
