## FINANCES AND INSURANCE OFFICE POLICY

Outstanding healthcare for every patient is the primary goal of Advanced Care. Another goal of ours is to
communicate clearly to all patients the financial guidelines related to a patient's treatment in order to avoid future
misunderstandings or disagreements related to the patient's financial responsibility. These guidelines apply to all patient
being seen at Advanced Care, LLC. Please be sure to put a check mark in each box below.
The patient is reminded that insurance coverage is an agreement between the policyholder and their insurance
company. The information verified by your insurance company is provided to us by your insurer and is not considered a
guarantee of payment. Please use this information and call your insurance company to ensure its accuracy and
completeness.
Advanced Care will make every effort to bill the patient's insurance in a timely manner, but the patient or the <i>patient's</i>
guardian/guarantor is ultimately responsible for all payments of any past, present and/or future charges including
medical procedures, therapeutic modalities and adjustments generated by all office visits which are not paid by his/her
insurance company. The patient is responsible for their self, their spouse and/or their children for all services rendered a
Advanced Care.
Patients are expected to bring their insurance cards and a photo ID to each visit and to be sure to give Advanced
Care registration personnel updated and accurate insurance information for each visit and it will be the sole responsibility of the guarantor to pay in full at each visit.
Patients are expected to confirm with their insurance companies that Advanced Care physicians are part of their
insurance network of physicians. If not, the patient may generally see an Advanced Care physician on an "out-of-network
basis, but with higher out-of-pocket expense. It is the patients' responsibility to determine all limitations on physicians'
visits and/or any other services imposed by their insurance company.
Patients are expected to pay at the time of service all amounts known not to be covered by their insurance company.
These amounts include co-payments, co-insurance, and/or deductibles. Patients with high-deductibles are expected to
pay a minimum of \$150 at their time of service and at each visit thereafter until their deductible has been met. Payments
may be made by Visa or MasterCard.
Coverage for Medicare patients only covers the cost of Chiropractic adjustments designed to help correct vertebral
subluxations. An exam is necessary to identify the presence of vertebral subluxations. Medicare requires this. But
Medicare does not pay for the cost of the exam or any needed x-rays. The cost for the exam and any needed x-rays for
the first visit is \$150.00. Please see our pamphlet regarding your financial responsibilities for Medicare.
☐ Some patients will be required by their insurance company to obtain a "referral" from their Primary Care Physician
authorizing their visit to the Advanced Care physician. It is the patient's responsibility to obtain this referral and to be sure
that the referral is communicated to Advanced Care before the patient's first visit. A patient presenting at Advanced Care
without a required referral will be expected to pay \$150.00 at registration for their office visit and any additional charges a
the end of their visit. Patients are reminded that many Primary Care Physician offices will not provide a retroactive referra
If you have been involved in an auto accident/injury on the job, you must immediately update your finances for
reimbursement for services rendered by Advanced Care. Your health insurance may not pay for these services, but you
may be able to run these services through your auto med-pay or through your employers' workman's compensation
program. Please know that if you fail to update this status and your health insurance denies payment due to an auto
accident/injury on the job, you will be held responsible for payment on all services rendered but denied by your health
insurance company.
Be sure to look at your <i>Explanation of Benefits</i> (EOBs) as soon as you receive them from your insurance company.
There will be an area where it will state the patient's responsibility. Make sure you send this amount to Advanced Care immediately to avoid any interest or collections charges for services rendered.
An APR of 1.5% per month or 18% annually will be added to any balance due past 30 days from first date of service
and each month thereafter until the account is paid in full. Patient accounts which have not been paid by the patient
and/or insurance company for 90 or more days since the first office visit will be referred to a collection agency and/or
attorney for collection. In addition to the account balance, the patient agrees to pay for any and all costs of collection or
legal fees related to these collection efforts.
All copies for medical records request or receipts are as follows: 50 cents per page up to 50 pages, 25 cents a page
thereafter and a \$10 processing fee.
For an additional fee of \$30 x-rays can be purchased on disk. All requests must be pre-paid and a 7 day advanced
notice must be given.
Any returned check and/or declined credit card will be a service fee of \$75 or maximum allowed by law.
All patients must give a 24 hour notice for cancellations to avoid a service charge as follows; New patient and Report
of Findings appointments are \$75, Routine Chiropractic appointments are \$25, Spinal Decompression appointments are
Full cost of appointment. (Please note: The software audit system automatically applies these charges and sends the bill for processing
to be mailed from the clearinghouse the day it occurs and it cannot be stopped, changed or deleted by the office staff.)
Talking on your Cell Phone Is Not Allowed While In The Office.
