INFORMED CONSENT IN THE STATE OF IOWA

FROM THE PATIENT

You have the right, as a patient, to be informed about the condition of your health and the recommended care and treatment to be provided so that you may make the decision whether to undergo such care after being advised of the known risks. This disclosure is not meant to frighten or alarm you. It is simply to make you better informed in order that you may give or withhold your consent.

INTRODUCTION

The professions of chiropractic, dentistry, medicine and surgery, nursing, optometry, osteopathy, osteopathic medicine and surgery, pharmacy, physical therapy, podiatry, psychology, and others are regulated in the state of Iowa under Iowa Code Chapter 147. Patient care and treatment provided by those above listed professions have known risks, which may include death, brain damage, quadriplegia, paraplegia, the loss or loss of function of any organ or limb, or disfiguring scars associated with such care and treatment.

Chiropractic is a science which concerns itself with the relationship between structure (primarily the spine) and function (primarily the nervous system) of the body as the relationship may affect the restoration and preservation of health. For your information, the following is routinely furnished to all who consider chiropractic care and treatment in this office.

NATURE AND PURPOSE OF CHIROPRACTIC

Adjustments are made by chiropractors to correct spinal and extremity joint subluxations. One of the most common disturbances to the nervous system is the vertebral subluxation. This condition exists where one or more vertebrae in the spine are misaligned sufficiently to cause interference and/or irritation of the nervous system. The primary goal in chiropractic health care is the removal of nerve interference caused by such subluxation(s). This is done with a chiropractic adjustment following a chiropractic examination which may include, but is not limited to spinal and physical examination, orthopedic and neurologic testing, palpation, specialized instrumentation, radiology examinations, and laboratory tests.

An adjustment is the application of a quick precise movement over a very short distance to the spine or extremity. There are a number of different adjusting techniques, some utilizing specially designed equipment. Adjustments are usually performed by hand but may be performed by hand-guided instruments. In addition, physiotherapy and/or rehabilitative procedures may be included in the management protocol.

Not only should you understand the benefits of chiropractic care and treatment in restoring and maintaining good health, but also you should be aware of the existence of some inherent risks and limitations. These are seldom enough to contraindicate care but should be considered in making the decision to receive chiropractic care. All health care procedures, including those used to varying degrees, have some risks associated with them. Risks associated with some chiropractic adjusting procedures may include musculoskeletal sprain/strain, neurological injury, fracture, vertebral artery syndrome (VAS) including stroke and perhaps death through complicating factors. Risks associated with physiotherapy may include not only the foregoing but also allergic reaction, muscle and/or joint pain.

AUTHORIZATION FOR CHIROPRACTIC CARE AND TREATMENT

I have been informed of the nature and purpose of the chiropractic care, the possible consequences of the care, and the risks of the care, including the risk that the care may not accomplish the desired objective. Reasonable alternative treatments have been explained, including the risks, consequences, and probable effectiveness of each and I have been advised of the possible consequences if no care is provided. I acknowledge that no guarantees have been made to me concerning the results of the care and treatment.

I HAVE READ THE ABOVE PARAGRAPHS. I UNDERSTAND THE INFORMATION PROVIDED. THE INFORMATION PROVIDED HAS BEEN EXPLAINED TO ME AND ALL QUESTIONS WHICH I HAVE ASKED HAVE BEEN ANSWERED TO MY SATISFACTION. HAVING THIS KNOWLEDGE, I KNOWINGLY AUTHORIZE HERRMANN FAMILY CHIROPRACTIC TO PROCEED WITH CHIROPRACTIC CARE AND TREATMENT.

Patient Health Information Consent

[REDACTED] You have the right to know how your Patient Health Information (PHI) is going to be used in this office and your rights concerning those records. Before we begin any health care operations, we require that you read, initial, and sign this consent form stating that you understand and agree with how your records will be used. If you would like to have a more detailed account of our policies and procedures concerning the privacy of your Patient Health Information, we encourage you to read the HIPAA NOTICE that is available to you at the front desk before signing this consent.

1. The patient understands and agrees to allow this chiropractic office to use their Patient Health Information (PHI) for the purpose of treatment, payment, healthcare operations, and coordination of care. As an example, the patient agrees to allow this chiropractic office to submit requested PHI to the Health Insurance Company (or companies) provided to us by the patient for the purpose of payment. Be assured that this office will limit the release of all PHI to the minimum needed for what the insurance companies require for payment.
2. The patient has the right to examine and obtain a copy of his or her own health records at any time and request corrections. The patient may request to know what disclosures have been made and submit in writing any further restrictions on the use of their PHI. Our office is not obligated to agree to those restrictions.
3. A patient's written consent needs only be obtained one time for all subsequent care given the patient in this office.
4. The patient may provide a written request to revoke consent at any time during care. This would not affect the use of those records for the care given prior to the written request to revoke consent but would apply to any care given after the request has been presented.
5. For your security and right to privacy, all staff have been trained in patient record privacy and a privacy official has been designated to enforce those procedures in our office. We have taken all precautions that are known by this office to assure that your records are not readily available to those who do not need them.
6. Patients have the right to file a formal complaint with our privacy official about any possible violations of these policies and procedures.
7. If the patient refuses to sign this consent for the purpose of treatment, payment and health care operations, our office has the right to refuse to give care.

You as a patient are liable for all charges that your plan does not cover. We cannot guarantee your insurance coverage, even if the office attempts to confirm your benefits and eligibility. Final approval of coverage is based on the explanation of benefits after the claim has been filed. I have been notified by my doctor that my insurance may not cover all the services provided for my care. If payment is denied for these services, I agree to be personally and fully responsible for payment. Any co-pay, coinsurance, or deductible is due at the time of service. I understand and agree that health and accident insurance policies are an arrangement between an insurance carrier and myself. Furthermore, I understand that office staff will prepare any necessary reports and forms to assist me in making collection from the insurance company and that any amount authorized to be paid directly to Herrmann Family Chiropractic will be credited to my account on receipt. However, I clearly understand and agree that all services rendered to me are charged directly to me and I am personally responsible for payment. I also understand that if I suspend or terminate my care and treatment, any fees for professional services rendered to me will be immediately due and payable.

This fee is not covered by insurance and is due before your next visit.** Appointment times are reserved for you and the doctors make every effort to accommodate your needs. When you do not arrive for a scheduled appointment, it creates an unused appointment time that could have been used for another patient. Your missed appointments not only affect the doctors' schedules but, more importantly, alter your progression of care. *Please call to reschedule or cancel 24 hours prior to your scheduled appointment.*
