"I trust Medistik to provide my patients with fast acting pain relief. No other over-the-counter analgesics I've used compare to the convenience and effectiveness of Medistik. This product is second to none. It's fast, long lasting, safe – and it works!"

Dr. Nick Kousouris, DC
Burlington

"I have been suffering from arthritic pain in my hands for a long time. I tried so many different products that I was very skeptical of trying Medistik. I was very impressed how quickly it relieved my pain. It even allowed me to fall asleep!"

What is Medistik™ Professional?

A unique and highly effective pain reliever, made in Canada. It is available only to health care professionals and their patients.

How does Medistik™ Professional work?

Alleviates Pain and Inflammation

When you are injured enzymes in your body create chemicals that cause pain and inflammation in your muscles and joints. Our Medistik Professional Dual blocks enzymes from producing these chemicals, which alleviates your pain and inflammation.

Improves Blood Flow

Medistik Professional opens up your blood vessels where it is applied. This increases blood flow and oxygen content at the site of injury, and speeds pain relief and healing.

Strength of Ingredients

We produce the strongest topical pain relief products you can obtain without a prescription. Medistik Professional does not mask or hide your pain – it attacks it directly.

Powerful ingredients, herbs, vitamins and natural additives help muscles, joints, the nervous system and fight inflammation.

Use before your daily activity for a pain free day
Easy to carry and easy to use

“Our patients love the immediate cooling sensation and pain relief. They were very responsive in purchasing Medistik for home use and were very happy with the convenience of the stick-on application. I highly recommend Medistik for its clinical effectiveness and easy application.”

Dr. Ivano Costa, DC
Advanced Health Recovery, Markham

“A family friend introduced me to Medistik ICE. I suffer from a compressed nerve at the back of my neck and often wake up with a very stiff neck. Unsuccessfully trying several other remedies Medistik ICE provided almost instant relief.”

Mary Doig
Customer, Toronto

“I run 90 to 100 miles per week. It is very hard on my legs, calves and hamstrings. I use Medistik to alleviate my sore muscles. I believe Medistik helps me train at a higher level by enhancing muscle recovery.”

Charles Bedley
Marathon Runner

“Medistik is a good tool to control pain and allow early controlled activity without the side effects frequently associated with other forms of pain-relieving medications. Medistik has helped many of my patients get through acute and chronic stages by relieving pain thus making it easier for them to participate in their treatment.”
