To whom it may concern:

I am writing to recommend Oasis Chiropractic Services. I think "Oasis Wellness" would better capture what they do.

Dr. Starkman and his team is spectacular. We have had them in our office on a few occasions and their services have been a real hit with the staff. Being a Firm that encourages wellness, we are always looking for ways to create more of that in the workplace. They are in essence, a one-stop-shop. I am a big fan of the Brain Spa. A 20-30 minute session will leave you feeling completely refreshed and inspired.

Their various services and staff are top-notch! Not only have they generously donated many services, time, effort and knowledge in many office-wide events, but also they have extended a Corporate rate to our employees for in-office visits.

I am happy to recommend the services of Oasis. I very much appreciate Dr. Starkman's willingness to spread awareness of the positive impact of wellness in people's lives.
