Description:

This authorization covers services associated with the specialty(s) identified for this episode of care, including all medical care listed below relevant to the referred care specified on the consult order.

Duration: 90 days

Procedural Overview:

1. Initial outpatient evaluation and outpatient re-evaluation as clinically indicated for the referred condition indicated on the consult order.
2. Plain film x-ray of the region of complaint specified on the consult order if not yet performed at the VA and is clinically indicated.
 - a. Plain film x-ray imaging only when medically necessary based on widely accepted indications such as clinical suspicion of fracture, dislocation, or other significant pathology. X-ray is not authorized solely for biomechanical/postural assessment, and/or determining manipulative technique approach.
3. Procedures relevant to the referred condition on the consult order including but not limited to: chiropractic manipulative treatment, manual therapy, massage, therapeutic exercise, neuromuscular re-education, acupuncture. Procedures must be performed by chiropractor and are subject to the provider's given state licensure and scope. Services outside of the licensure and scope of the chiropractor must have RFS submitted for review prior to care rendered by another provider.
4. Authorized up to twelve (12) chiropractic visits for this episode of care.

Note: Requests for additional chiropractic care beyond this trial must provide documentation of: Objective measures demonstrating the

extent of meaningful clinical improvement to date; AND Rationale for the additional treatment requested (e.g. to reach further durable improvement, or for ongoing pain management); AND Any further information supporting the need for additional care
