Let's Make Sure We're On the Same Page

When an individual or family seeks and is accepted into a program of function-based chiropractic care, it is essential for all parties to be working toward the same objectives. We have only one goal, and it is important that everyone understands both our objective and the methods we will use to move consistently toward the objective.

Your care in our center is not a substitute or alternative for, nor is it a preventative form of medicine. Medically-based care specializes in the diagnosis and treatment of specific symptoms, illness and disease. Our function-based chiropractic care specializes solely in helping people of all ages ensure that their spines and nervous systems are functioning as optimally as possible. This in turn allows their bodies to work the best they possibly can.

While the natural result of optimal function is increased health, wellness, and an overall improved quality of life, we will not treat or attempt to cure any specific physical, mental or emotional ailment, nor will we give advice about specific medical conditions or treatments.

If you are seeking care for the removal of a specific medical symptom or condition, we suggest you seek additional help from a symptom, illness, and disease-oriented professional if you feel that our function-based approach will not be sufficient in progressively raising you to the levels of health, wellness and quality of life you desire for yourself and your family.

I, _____, have read and understand the above statement and I hereby give permission for Dr. Joshua to continue with my child's and/or initial consultation and assessment. I also agree to return at a later date to allow Dr. Wilson to report his findings and recommendations to me. By agreeing to this, I am in no way obligated to follow the advice given to me in the report of findings.

Signed: _____ Date: _____

We sincerely thank you for choosing our center and for taking the time to honestly reflect upon and share your current level of health and well-being, as well as your goals.
We look forward to helping you maximize your experience and expression of health & life!
