

Holo-Plexus

A Constellate of Multi-Target Binders
120 Veggie capsules

Matrix Nutritional Series

Metals | Herbicides | Molds | Metabolites | BioFilms | Limbic Kindling |

Patient Reference

The Matrix Nutritional Series was designed as an eclectic offering for the Physica Energetics line of synergistic remedies to correct and support the nutritional **Causal Chain communication pathways**. These pathways are present in every system throughout the body. In keeping with the principles of functional & bio-energetic medicine, the remedies nourish and support these systems without punishing them with overstimulation or imbalancing factors which ultimately prove to be counterproductive. The Matrix Nutritional supplements' approach has been scientifically and bio-energetically designed to provide the required natural, symbiotic, factors in the correct *biochemical* and *bioenergetic ratios*, to provide restorative assistance to compromised body, mind and heart challenges. They are not to be confused with solely replacement therapy nutraceuticals that may seem to help for the moment, until the patient stops taking them or the condition is driven deeper. Multidisciplinary-leaning practitioners, who clinically appreciate the masterful blend of art and science, quickly discover that these timely remedies become an integral part of their practice.

*"How did you go bankrupt?" Bill asked.
"Two ways," said Mike, "Gradually, then suddenly."*

These lines from Ernest Hemingway's novel, *The Sun Also Rises*, reveal a lot about the human experience when it comes to success and failure. Similarly, we are clinically cognizant of the fact that the multi-level toxin overload in body, mind and heart, is clearly a matter of *biological and bioenergetic attrition*.

Today's most successful practitioners are well aware of the clinical advantages of our effective emunctory (organs of elimination) intracellular and extracellular drainage and detoxification, target remedies. However, as is often the case, while the remedies will definitely support drainage & detoxification, if the target organs are deficient and/or are underperforming for example, the toxin overload may be too great for the emunctories removal processes. In this case, while the patient may *feel better*, they won't necessarily *BE* better (!) having clinically or sub-clinically, reintegrated the toxins' translocation, which results in deeper cellular impregnation.

This is where binders play a crucial and important role. Clinically effective binders are a safe complement to many treatment protocols, regardless of whether they are endogenous or exogenous. They also take the "stress" off of other organs of elimination and reduce Herxheimer reaction times and events.

They help bind harmful microbial by-products, solvents, molds, plastics, hormone metabolites, fat soluble toxins, (VOCs), pesticides, herbicides, radioactive elements, toxic metals, biofilms and more. These toxins are often at the root or are complicit in our current complex chronic health challenges.

The body's most important detox organ, arguably the liver, expels toxins into the bile that flows from the liver

down through the digestive tract and ideally exit out the body through the stool. However, if the bile is thick/syrupy and sluggish (as is the case of most patients who are nutritionally deficient etc) the lining of the gut's many veins and nerves can pick up toxins and re-circulate them ("*enterohepatic recirculation*") and re-integrate them, often making matters far worse. Impregnation or "RETOX" results in deeper, exacerbating challenges and translocating complexities.

Not all toxic elements are exogenous. Many are internal endotoxins such as those released by various pathogens. Pathogen created toxins will also activate cytokines which lead to inflammation.

Different binders have affinities for different toxins based in the net charged and the different molecular bonds.

We have created Holo-Plexus as a specific multi-target, broad ranging, binder-mesh with clinical affinities for a significant number of accumulated endogenous and exogenous toxins. This remedy is an exceptionally unique, non-synthetic blend of synergistic binders and causal chain, organic botanicals designed to aid in the removal of clinically complicating toxins, whilst keeping the digestive system flowing and healthy.

Think, gut-brain-immune-gut...and more (!)
Particularly if the targets are long standing or have the propensity to leak.

Holo-Plexus can be used as a stand-alone or as an integral causal chain remedy for most every protocol including the Restoring Cellular Communication Pathways program (RCCP). The healing and health implications of proper toxin drainage and binding are immense.

Binding + Drainage = RESTORATION

Causal Chain Ingredients (per 2 caps)

- Zeolite (Clinoptilolite 97%) 800 mg
- Montmorillonite (Bentonite clay) 50 mg
- Modified Citrus Pectin 400 mg
- Activated Charcoal (Bamboo) 25 mg
- Microchitisan 50 mg, Silica (Bamboo extract) 50 mg

Proprietary Phyto- Rich Nutrient Digestive Support Blend

- Larch Arabinogalactan (Larix spp. 90%)
- Organic Aloe 200:1 extract
- Organic Slippery Elm Bark

(CONTAINS SHELLFISH)
