TERMS OF ACCEPTANCE AND CONSENT TO CHIROPRACTIC SERVICES

---

When a patient seeks chiropractic health care and we accept a patient for such care, it is essential for both to be working towards the same objective. Chiropractic has only one goal. It is important that each patient understand both the objective and the method that will be used to attain it. This will prevent any confusion or disappointment. **Adjustment:** An adjustment is the specific application of forces to facilitate the body's correction of vertebral subluxation. Our chiropractic method of correction is by specific adjustments of the spine. **Health:** A state of optimal physical, mental and social well being, not merely the absence of infirmity. **Vertebral Subluxation:** A misalignment of one or more of the 24 vertebra in the spinal column which causes alteration of nerve function and interference to the transmission of mental impulses, resulting in a lessening of the body's innate ability to express its maximum health potential. We do not offer to diagnose or treat any disease or condition other than vertebral subluxation. However, if during the course of a chiropractic spinal examination, we encounter non-chiropractic or unusual findings, we will advise you. If you desire advice, diagnosis or treatment for those findings, we will recommend that you seek the services of a health care provider who specializes in that area. Regardless of what the disease is called, we do not offer to treat it. Nor do we offer advice regarding treatment prescribed by others. OUR ONLY PRACTICE OBJECTIVE is to eliminate a major interference to the expression of the body's innate wisdom. Our only method is specific adjusting to correct vertebral subluxation.

I hereby request and consent to chiropractic adjustments and other procedures by Dr. Nicholas Centra, Dr. Tara Centra and staff who now or in the future treat me while employed by this office. I will have an opportunity to discuss with Centra Family Chiropractic personnel the nature and purpose of treatment indicated. While chiropractic treatment is remarkably safe, you need to be informed about the potential risks related to your care to allow you to be fully informed before consenting treatment. Please inquire if you have further questions. I do not expect the Doctor to be able to anticipate and explain all risks and complications, and wish to rely on the Doctor to exercise judgment during the course of any procedure which the Doctor feels at the time is in my best interest. I understand that Centra Family Chiropractic will not be held responsible for any pre-existing medical conditions. I certify that the information contained in my health history is correct to the best of my knowledge. I will not hold my doctor or any staff member of Centra Family Chiropractic responsible for any errors or omission that I may have made in the completion of this form.

1. The patient understands and agrees to allow this chiropractic office to use their Patient Health Information (PHI) for the purpose of treatment, payment, healthcare operations, and coordination of care.
2. The patient has the right to examine and obtain a copy of his or her own health records at any time and request corrections. The patient may request to know what disclosures have been made and submit in writing any further restrictions on the use of their PHI. Our office is not obligated to agree to those restrictions.
3. A patient's written consent need only be obtained one time for all subsequent care given the patient in this office.

We have taken all precautions that are known by this office to assure that your records are not readily available to those who do not need them.
6. Patients have the right to file a formal complaint with our privacy official about any possible violations of these policies and procedures.
7. If the patient refuses to sign this consent for the purpose of treatment, payment and health care operations, our office has the right to refuse to give care.

I have read, or have had read to me, the full above terms of acceptant and consent to chiropractic services and have also had an opportunity to ask questions about its content and by signing below I agree to the above terms and procedures. I intend this consent to cover any treatment for my present condition and for any future care provided by this clinic and/or employed staff.
