INFORMED CONSENT TO CHIROPRACTIC TREATMENT

<u>Nature of Chiropractic Treatment</u>: The primary treatment used by doctors of chiropractic is spinal manipulative therapy. The doctor will use that procedure to treat you. The doctor may use her hands or a mechanical instrument upon your body in such a way as to move your joints. That may cause an audible "pop" or "click", much as you have experienced when you "crack" your knuckles. You may feel a sense of movement.

<u>Analysis/Examination/Treatment:</u> As a part of the analysis, examination, and treatment, you are consenting to the following procedures: spinal manipulative therapy, palpation, vital signs, range of motion testing, orthopedic testing, basic neurological testing, muscle strength testing, postural analysis testing, hot/cold therapy, EMS, trigger point therapy, IASTM, and/or other.

Inherent risks in a chiropractic adjustment: As with any healthcare procedure, there are certain complications which may arise during chiropractic manipulation therapy. These complications include but are not limited to: fractures, disc injuries, dislocations, muscle strain, cervical myelopathy, costovertebral strains and separations, and burns. Some types of manipulation of the neck have been associated with injuries to the arteries in the neck leading to or contributing to serious complications including stroke. Some patients will feel some stiffness and soreness following the first few days of treatment. The ancillary procedures could produce skin irritation, burns or minor complications. The doctor will make every reasonable effort during the examination to screen for contraindications to care; however, if you have a condition that would otherwise not come to the doctor's attention it is your responsibility to inform the doctor.

<u>Probability of those risks occurring</u>: Fractures are rare occurrences and generally result from some underlying weakness of the bone which we check for during the taking of your history and during examination. Stroke and/or arterial dissection caused by the chiropractic manipulation of the neck has been the subject of ongoing medical research and debate. The most current research on the topic is inconclusive as to a specific incident of this complication occurring. If there is a causal relationship at all it is extremely rare and remote. Unfortunately, there is no recognized screening procedure to identify patients with neck pain who are at risk for arterial stroke. The probability of adverse reaction due to ancillary procedures is also "rare".

Other Treatment Options: May include self-administered, over-the-counter analgesics and rest, medical care and prescription drugs such as anti-inflammatory, muscle relaxants, and pain killers, hospitalization, and/or surgery. If you chose to use one of the noted options you should be aware there are risks and benefits of such options and you may wish to discuss these with your primary medical physician.

<u>Risks and dangers attendant to remaining untreated:</u> Remaining untreated may allow the formation of adhesions and reduce mobility which may set up pain reaction further reducing mobility. Over time, this process may complicate treatment making it more difficult and less effective the longer it is postponed.

<u>Concerns or questions:</u> Please ask your doctor of chiropractic if you have any questions. Dr. Brittany LaRocque and the staff at Champion Chiropractic LLC have gone to great lengths to make your health and safety a top priority.

No Warranty: I understand my doctor at Champion Chiropractic LLC, cannot make any promises or guarantees regarding a cure for or improvement in my condition. I understand my doctor will share with me her opinion regarding potential results from chiropractic treatment for my condition and will discuss treatment options with me before I consent to treatment. I have read the explanation above of chiropractic treatment. I have had the opportunity to have any questions answered to my satisfaction. I certify the information obtained in the health history is correct to the best of my knowledge and will not hold the doctor or staff responsible for errors or omissions I have made in completion of this form. I have fully evaluated the risks and benefits of undergoing treatment. I have freely decided to undergo the recommended treatment, and herby give my full consent to treatment now and in the future.

Financial Policy

Our office, Champion Chiropractic, LLC, has adopted the following financial policies to better serve our patients and reduce misunderstanding between our patients and the practice. If you have any questions regarding these policies, please discuss them with us.

We provide the best possible care and service to you and regard your complete understanding of your financial responsibilities as an essential element of your care and treatment.

Your Payment/Insurance:

• If you are not using insurance, payment will be due at the time of service. If you are unable to pay your balance in full, you will need to make prior arrangements with us.

Ask about ChiroHealthUSA for prices.

- We are contracted with several insurance companies, but it is your responsibility to make sure the physician is in your plan. It is your responsibility to know your insurance benefits. We will attempt to verify insurance benefits initially; it is only a quote and not a guarantee of insurance payment.
- As a courtesy to our patients, we will file primary insurance forms from our office. In order to do this, we will require information from you. We will need all your demographic and insurance information at your first appointment. We will also request an update on this information every exam and when your insurance(s) policy and/or coverage changes. We ask that at the time of your appointment you bring your insurance card, a photo ID, and any other forms that will assist in making sure that your claim is filed correctly.
- At the time of service, you will be responsible for all fees that are not covered by your insurance, including co-pays, co-insurance, deductibles, and noncovered services and/or items received. The copay cannot be waived by our practice as it is a requirement placed on you by your insurance carrier. We strive to be as accurate as possible in calculating your financial responsibility, but with many variations in policies and fee schedules, we are not always exact. You may receive a statement from our office for any balance due. For your convenience we accept cash, checks, credit cards, HAS/FSA cards, and money orders.
- If your health plan determines a service to be "not covered," you will be responsible for the complete charge. We will bill your health plan for all services provided in our office. Any balance due is your responsibility and is due upon receipt of a statement from our office.
- For all services rendered to minor patients, we will look to the adult accompanying the patient or the parent or guardian with custody for payment.

Although we may not always agree with the stricter rules and limitations, we must comply with them in order to protect our practice. As part of our commitment to providing affordable care, we have chosen to participate in ChiroHealthUSA which allows us to provide discounted fees to our patients who become members to remain compliant with federal law.***

ChiroHealthUSA is a network that works in conjunction with a Discount Medical Plan Organization giving patients access to the same discounts that are typically only negotiated by the insurance companies.

ChiroHealthUSA is <u>NOT</u> insurance and should not replace your insurance; it simply allows us to lower the cost for your services at our clinic.

Becoming a member of ChiroHealthUSA is easy:

- Join right here in our clinic in just minutes
- Pay just \$49 per year
- Membership covers you and your legal dependents
- Receive discounts with any ChiroHealthUSA provider nationwide

<u>Missed Appointment Policies</u>: In order to reach your healthcare goals, please keep your appointments as scheduled or contact Champion Chiropractic LLC within 24 hours to make any changes. Please arrive by the time you are scheduled. If you are more than 10 minutes late, this may result in needing to reschedule you. We try our best to accommodate those arriving late, but do not want to disrupt the quality care that we provide to you and other patients scheduled.

<u>Late payment policies</u>: We will send three statements for any payments due and make reasonable attempts to collect payment for any due services. After making three attempts for payment, we may submit the amount due to collections. Collection agencies can legally contact the patient daily until the amount due is paid. If there is balance on a patient's account after three attempts made, the balance will be due before the patient can be scheduled again.

Dismissal Policy

- If you are "dismissed" from the practice, it means you can no longer schedule appointments or consider us to be your doctor. You must find a doctor in another practice.
- Common reasons for dismissal: failure to keep appointments, frequent no-shows, non-compliance (meaning you will not follow physician instructions about an important health issue), abuse to staff, and/or failure to pay your bill.
- Dismissal Process: We will send a letter to your last known address, via certified mail, notifying you that you are being dismissed. If you have a medical emergency within 30 days of the date on this letter, we will see you. After that, you must find another doctor. We will forward a copy of your medical record to your new doctor after you let us know who it is and sign a release form.
- ***Healthcare providers are now required to implement "Compliance Programs" which include review of billing policies and assure that improper discounts are not being offered to patients. Compliance Programs are designed to eliminate potential fraud and abuse.
