Insurance

New Tripoli Whole Health is considered an “**out of network**” provider for all insurance companies. By remaining out of network we are able to set our fees much lower, making our services accessible to everyone. We are also able to provide a higher level of care to our patients without the impositions and restrictions that are often dictated by insurance companies.

As a service to our patients who have insurance, we will provide the coding that is necessary for reimbursement by your insurance company. As an additional benefit, we will also submit your claim electronically directly to your insurance carrier. If the claim is accepted, and you have coverage for the services provided, reimbursement from your carrier will come directly to you according to the coverage specified in your policy.

New Tripoli Whole Health makes no guaranties regarding reimbursement.

Reimbursement is completely dependant upon the decisions and policies of your particular insurance provider. If your claim is rejected it is your responsibility to pursue the matter with your individual insurance carrier.

*The “Range” column indicates that all exam and procedure fees are dependent on time and level of complexity. The “Typical” column displays the most common fee for service.

**The Functional/Nutritional follow up fee is dependent on the patient purchasing and refilling all recommended nutrition products at New Tripoli Whole Health while under care. Revenue from nutritional sales covers the cost of the additional time and expenses associated with functional/nutritional follow up visits. If products are purchased or refilled from another source an additional facility charge of \$50 will be added to the visit to help cover these costs.
