

Sozo Integrative Health

Legal Disclaimers for Medically Integrated Clinic

BHRT Page Disclaimer

Medical Disclaimer & FDA Notice: Specialized functional and wellness therapies offered at Sozo Integrative Health are aimed at supporting cellular health, tissue vitality, and metabolic balance. Medical oversight for hormone optimization, peptide therapy, and integrative wellness protocols is provided by Dr. Blane Schilling, MD, and administered by our licensed medical and nursing staff, including Lauren Schmitt, RN, in accordance with Colorado state regulations.

Customized bioidentical hormone replacement therapies (BHRT) and certain peptide protocols utilize high-quality compounded formulations tailored to individual physiological needs. Because these medications are customized per patient, compounded therapies are not mass-pre-approved by the Food and Drug Administration (FDA) to treat, prevent, or cure specific chronic medical diseases. These procedures are considered elective wellness and functional medicine therapies. Individual clinical results vary significantly based on medical history, genetics, and lifestyle factors; Sozo Integrative Health does not guarantee specific medical outcomes or represent these treatments as definitive alternatives to conventional pharmaceutical tracks.

Items to make sure are included on your site where appropriate:

Clinic Structure & Provider Transparency

Sozo Integrative Health is a multidisciplinary, integrated healthcare facility serving the Castle Rock, Colorado community. Chiropractic medicine, spinal care, and restorative therapies are provided by Dr. Joseph Schmitt, DC, and Dr. John Jost, DC. Medical oversight for hormone optimization, peptide therapy, and integrative wellness protocols is provided by Dr. Blane Schilling, MD. All clinical evaluations, cosmetic injectables, and wellness procedures are conducted by our licensed medical and nursing staff, including Lauren Schmitt, RN, in accordance with Colorado state regulations.

Treatments & FDA Status Disclaimer

Specialized wellness therapies, including SoftWave® technology and customized bioidentical hormone replacement therapies (BHRT), are designed to optimize whole-body health and vitality. While individual components and technologies utilized in our protocols are vetted for safety, customized wellness protocols and compounded hormone therapies are tailored to individual patient needs and are not mass-pre-approved by the FDA to treat, cure, or prevent specific chronic medical diseases. These procedures are considered elective wellness and functional medicine therapies. Sozo Integrative Health does not claim that these treatments serve as a guaranteed alternative to surgical intervention or traditional pharmaceutical courses.

Patient Testimonials & Results

Testimonials found on this website reflect the real, individual experiences of actual patients. However, human biology is complex, and clinical results vary significantly based on individual medical histories, genetics, and lifestyle factors. These stories are illustrative of individual patient outcomes and are not intended to represent, promise, or guarantee that any prospective patient will achieve identical or similar results.

Here is the fully compliant, tailored **Website Disclaimer & Terms of Use Notice** for **Sozo Integrative Health** in Castle Rock, Colorado.

This text is structured to be placed either on a dedicated "Legal Disclaimer" page (linked in the footer) or split between the website footer and individual service landing pages (like BHRT and SoftWave®) to satisfy Colorado clinical transparency and consumer protection standards.

WEBSITE DISCLAIMER & TERMS OF USE

1. Professional Services & Integrated Clinic Structure

Sozo Integrative Health operates as a multidisciplinary wellness facility.

- **Chiropractic Medicine:** Chiropractic care, pediatric/prenatal spinal evaluations, and spinal decompression services are provided independently by Dr. Joseph Schmitt, DC, and Dr. John Jost, DC.
- **Medical Optimization & Wellness:** Medical oversight, comprehensive evaluations, integrative weight loss protocols, cosmetic injectables, peptide therapy, and bioidentical hormone replacement therapy (BHRT) are directed and overseen by Dr. Blane Schilling, MD, and administered by our licensed medical and nursing staff in accordance with Colorado state regulations.

2. Not a Substitute for Emergency Medical Advice

The information provided on this website—including text, graphics, images, and clinical descriptions—is for educational and informational purposes only. It is not intended to be a substitute for emergency medical care or traditional acute medical diagnosis. Always seek the advice of your primary care physician or other qualified healthcare provider with any questions you may have regarding an urgent medical condition.

3. Treatments & FDA Status Notice

Specialized functional and wellness therapies offered at Sozo Integrative Health are aimed at supporting cellular health, tissue vitality, and metabolic balance.

- **BHRT & Wellness Compounding:** Customized bioidentical hormone replacement therapies and certain peptide protocols utilize high-quality compounded formulations tailored to individual physiological needs. Compounded medications are customized per patient and are not mass-pre-approved by the Food and Drug Administration (FDA) to treat, prevent, or cure specific chronic medical diseases.
- **SoftWave® Technology:** SoftWave® tissue activation therapy is an advanced, non-invasive acoustic wave technology utilized for the clearing of inflammation and acceleration of biological healing.
- **Surgical Alternatives:** None of the elective wellness, functional medicine, or tissue therapies provided at Sozo Integrative Health are marketed or guaranteed as definitive alternatives to surgical intervention or conventional standard-of-care pharmaceutical tracks.

4. Individual Results & Testimonials

Testimonials, patient stories, and reviews found on this website represent the real-world experiences of specific individuals who have undergone care at Sozo Integrative Health. Human physiology, metabolic health, and

compliance with care protocols vary dramatically from person to person. Consequently, individual clinical results will vary significantly based on medical history, genetic baselines, and lifestyle factors. These success stories are illustrative only and do not constitute a promise, representation, or guarantee that any prospective patient will achieve identical or similar outcomes.
