Terms of Acceptance

Informed Consent:

A patient, in coming to the chiropractic doctor, gives the doctor permission and authority to care for the patient in accordance with the chiropractic tests, diagnoses, and analysis. The chiropractic adjustment or other clinical procedures are usually beneficial and seldom cause any problems. In rare cases, underlying physical defects, deformities or pathologies may render the patient susceptible to injury. The doctor, of course, will not give any treatment or care if he is aware that such care may be contra-indicated. Again, it is the responsibility of the patient to make it known, or to learn through healthcare procedures what he/she is suffering from: latent pathological defects, illnesses or deformities which would otherwise not come to the attention of the chiropractic physician. The chiropractic doctor provides a specialized, non-duplicating health care service. Your doctor of chiropractic is licensed in a special practice and is available to work with other types of providers in your health care regimen. I understand that if I am accepted as a patient by **Mason Spine and Injury Center.** I am authorizing to proceed with any treatment necessary. Furthermore, any risk involved, regarding chiropractic treatment, will be explained to me upon my request.
