## **Informed Consent Agreement**

*NMT- The Feinberg Technique Treatment Consent Form*

NeuroModulation Technique (“NMT”) is intended to determine the patient’s perception of conditions contributing to illness. I desire to be screened with NMT, and hereby consent to participate in this type of screening and treatment.

The procedure has been explained to me, and I understand that certain adverse effects may result from the treatment. These could include, but are not limited to, a temporary soreness in muscles of the arms tested, or a temporary flare-up of my symptoms. Other possible side effects include symptoms of heightened immune function or detoxification such as fever, chills, headache or body aches.

I understand that NMT- *The Feinberg Technique* is not a medical diagnostic procedure, and therefore does not diagnose disease. Diagnosis requires particular types of clinical examination procedures by a physician trained in diagnosis. By contrast, NMT is intended to determine the patient’s perception of conditions contributing to illness. I understand that Muscle Response Testing, (“MRT”) employed in NMT, like any medical testing procedure, is not 100% accurate.

I understand that alternative methods of treatment are available. These have been described to me. If I am suffering from severe allergenic reactions to substances, I will consult an appropriate physician and, if so advised, take medication (to prevent itching, tissue swelling, fever, cough, pains, etc.) to keep my symptoms under control while I am being treated with NMT- The Feinberg Technique.

I understand that determination of the existence and identification of particular infectious agents in the body requires specific laboratory testing. NMT- The Feinberg Technique does not diagnose any infectious agent, nor is it a substitute for appropriate laboratory testing. Rather, NMT evaluates the perceptions of the autonomic control system, and immune system with regard to such issues, and attempts to optimize autonomic function with respect to immune system control.

NMT- The Feinberg Technique is not a method of diagnosing or treating cancer. Medical oncologists are the only health care personnel appropriately trained to manage the treatment of cancer. NMT is not a substitute for appropriate medical care of cancer.

I agree to cooperate and take an active role in my treatment by maintaining a positive attitude regarding treatment, continuing contact with and treatment from medical practitioners, and communicating progress and side effects to the health care provider administering NMT. I understand that I am to continue all medication and other treatment modalities as they have been prescribed unless otherwise directed by the doctor who prescribed them.

I understand that there is no guarantee concerning the effect of the treatment. I understand that I am free to discontinue treatment at any time, but acknowledge that I am responsible for full payment of the normal and necessary fees associated with my screening and treatment.

I also understand that clinical data is presently being collected on the technique that requires the gathering of certain information in accordance with research protocols. I understand that the results of this study may be published in a medical or scientific journal, and that a number or letter designating my case, but not my name, may be used in reports of this study.

I have read, or have had read to me, the above statements, and have been provided with the opportunity to ask any pertinent questions I have regarding this screening and treatment program. I have been informed that I am to contact the doctor if any problems are encountered during my treatment. I understand the conditions stated above, and hereby consent to participate in this type of screening and treatment. By signing below I agree to the terms and procedures set forth above.

## Informed Consent Agreement

### NMT- The Feinberg Technique Remote Treatment Consent Form

Neuro Modulation Technique (“NMT”) is intended to determine the patient’s perception of conditions contributing to illness. I desire to be screened with NMT, and hereby consent to participate in this type of screening and treatment. In this case, I am seeking NMT screening and treatment via telephone as I am unable to physically visit the physicians clinic.

The procedure has been explained to me, and I understand that certain adverse effects may result from the treatment. These could include, but are not limited to, a temporary flare-up of my symptoms. Other possible side effects include symptoms of heightened immune function or detoxification such as fever, chills, headache or body aches. I understand that if any unexpected exacerbation of my symptoms should occur, I am solely responsible for obtaining appropriate medical care to address those symptoms or conditions.

I understand that NMT: The Feinberg Technique is not a medical diagnostic procedure, and therefore does not diagnose disease. Diagnosis requires particular types of clinical examination procedures by a physician trained in diagnosis. By contrast, NMT is intended to determine the patient’s perception of conditions contributing to illness. I understand that Muscle Response Testing, (“MRT”) employed in NMT, like any medical testing procedure, is not 100% accurate. Since I have chosen to undergo screening and treatment via telephone, I understand that my treatment will be based upon surrogate muscle response testing as an indicator of response to semantic queries and statements the practitioner verbally delivers to me. I understand that the efficacy of such treatment has been both established and refuted in published scientific literature.

I understand that alternative methods of treatment are available. These have been described to me. If I am suffering from severe allergenic reactions to substances, or any health condition for which I have been prescribed medications to control dangerous symptoms, I will consult an appropriate physician and, if so advised, take medication (to prevent itching, tissue swelling, fever, cough, pains, etc.) to keep my symptoms under control while I am being treated with NMT: The Feinberg Technique.

I understand that determination of the existence and identification of particular infectious agents in the body requires specific laboratory testing. NMT: The Feinberg Technique does not diagnose any infectious agent, nor is it a substitute for appropriate laboratory testing. Rather, NMT evaluates the perceptions of the autonomic control system, and immune system with regard to such issues, and attempts to optimize autonomic function with respect to immune system control.

NMT: The Feinberg Technique is not a method of diagnosing or treating cancer. Medical oncologists are the only health care personnel appropriately trained to manage the treatment of cancer. NMT is not a substitute for appropriate medical care of cancer, or any other health care condition. I understand that I am not being asked to discontinue any concurrent medical care. Moreover, I understand that it is recommended that I do not discontinue any care prescribed by my doctors.

I agree to cooperate and take an active role in my treatment by maintaining a positive attitude regarding treatment, continuing contact with and treatment from my other health care practitioners, and communicating progress and any possible side effects or new symptoms that may or may not be related to my NMT treatment to the health care provide administering NMT.

I understand that I am to continue all medication and other treatment modalities as they have been prescribed unless otherwise directed by the doctor who prescribed them. I also understand that improvement in my health resulting from the NMT treatment I am requesting, may result in a change in my requirement for medications other providers have prescribed for me, and will consult that medical provider to see if a change in medication or medication dosage is necessary.

I understand that there is no guarantee concerning the effect of the treatment. I understand that I am free to discontinue treatment at any time, but acknowledge that I am responsible for full payment of the normal and necessary fees associated with my screening and treatment. I understand that if I terminate treatment without the recommendation of my NMT practitioner, that this may adversely influence the degree or durability of improvement from my treatment. I agree that if I am being treated for allergies causing dangerous symptoms such as anaphylactic response, or for any condition that is aggravated by certain activities or exposures, that I will not expose myself to such risk of aggravation except as advised by my NMT practitioner under controlled and defined circumstances. I understand that if I expose myself to such aggravating factors prematurely, this may pose a risk to my health.

I understand that any services that are being provided on a remote basis are my sole financial responsibility, and that no aspect of such services may be billed to insurance companies for the purposes of reimbursement. I understand and authorize all charges for this service to be billed to the credit card account I have provided.

I further agree to be interviewed during this teleconference, and that this interview and my voice may be audio taped. I understand that these recorded audiotapes may be used for telephone consultation evaluation, research and NMT encounter purposes only, at both the transmitting and receiving facilities, and that my identity will not be disclosed except where medically necessary. I understand that without prior written consent, said recorded tapes will not be broadcast or otherwise played outside the health care or educational setting.
