Authorizing Consent for examination of a Minor (under 16 years): Please Read Carefully
In order for the health professional as indicated below to make a determination on the suitability of my child's/guardian's case for care, I acknowledge and understand that a thorough evaluation must be completed. I do hereby request and consent to the performance of such an evaluation by the person(s) named below, or any party authorized to do so by that person.

I have had the opportunity to discuss with the Doctor of Chiropractic indicated below, or with any party authorized to do so by that Chiropractor, about the nature and purpose of the examination process. I understand that there may be remotely associated risks with examinations, as there are with any and all healthcare treatments. In healthcare, the matter of whether any treatment is appropriate or not is determined by looking at the level of risk and comparing this with the level of expected benefit. I understand that I may ask the doctor to stop the examination at any time. I also understand that by signing this form, the chiropractor continues to be obligated for best practices delivered in the child's interests.
