

# Scar Release Therapy

A Breakthrough in Pain and Stress Reduction

# Scar Release Therapy

## A Breakthrough in Pain Relief

***Did you know scars produce pain?***

***90% of their Influence is Distal?***

Research now reports that ***abdominal scars & c-sections produce shoulder, neck and back pains!*** They are now known to affect stress, fascia and the formation of adhesions, all of which are linked in research to increased pain & disease. MPS Scar Release Therapy (SRT) re-establishes cellular metabolism, releasing fascia, stress & pain for an unparalleled ***pain relief.*** (73% JCNB).

# Why MPS Microcurrent for Scar Release?

Microcurrent has been clinically proven to closely approximate the body's naturally occurring cellular bio-electric currents.

Microcurrent (millionth of amp  $\leq 1\text{ma}$ ) has been scientifically proven to accelerate ATP, protein synthesis, metabolism, and regulation the autonomic nervous system, key actions for SCAR tissue healing. (cheung 82)

Same Research reported electro-currents applied above  $\geq 1\text{ma}$  (eg. AC TENS and AC Electro-acupuncture) as inhibiting ATP, metabolism & protein synthesis.

**NEW SCIENCE:** MPS applied to placebo & active acupuncture points reduced sympathetic STRESS and cortisol while AC TENS increased STRESS and Cortisol (JCNB 2017- below graphs) NOTE: AC is man made, DC is found in nature.

**MPS:**  
mimics  
inter-cellular  
exchange

**MPS Increases:**  
ATP  
Protein  
Synthesis  
&  
Metabolism

**ATP by Increased by  
300-500%**

# MPS - A Superior Therapy for Stress Reduction

Microcurrent Point Stimulation (MPS) was born out of Endorphin research in the 1970-80's. Research proved endorphins were only released using a low voltage, high power square wave, as these parameters optimally resonated with bodies nerve system & cells.

Today, that same stimulation is packaged for convenient application and delivering the most potent de-stressing stimulation on the market, for unparalleled stress reduction & Pain relief

MPS is highly effective for STRESS reduction and Pain relief, consistently beating all other modalities, even acupuncture, for stress reduction and pain relief... key for Scar release Therapy!

## Massage Effect on STRESS (Sympathetic UPregulation)

Massage Increased STRESS 11% in Pain Patients: + 10 POINTS N=4

## AC TENS Effect on STRESS (Sympathetic UPregulation)

AC TENS increased STRESS 18%: +32 POINTS N=15

## Acupuncture Effect on STRESS (Sympathetic UPregulation)

Acupuncture reduced STRESS -3% in Pain Patients : -4 POINTS N=5

## Microcurrent Effect on STRESS (Sympathetic UPregulation)

Microcurrent Decreased STRESS 41%: - 84 POINTS N=38

# How Scars Produce Pain

## Scars Produce Stress

Upregulate the Sympathetic Nervous System.

## Scars Create Adhesions

Adhesions are internal straight jackets, reducing muscle/organ performance and increasing pain.

## Scars Injure Fascia

Fascia encompasses the entire body and any injury can severely strain muscles far removed from injury site.

## Scars Block Circulation

Scars restrict metabolism, lymph, circulation and energetic flows, leading to many problems.

The combination of increased sympathetic stress, fascia injuries and new adhesion formation will block circulation and cause chronic pains.

## Abdominal Scars

## Produce Adhesions

## Straining Fascia

# Published Scar Release Research

## Successfully Treat Pain: Apply MPS to Scars

Scars and trauma have long been recognized in neural therapy as a source of chronic pain as a result of Autonomic Nervous System upregulation (stress). They are now known to affect stress, fascia and form adhesions, all of which cause pain & disease.

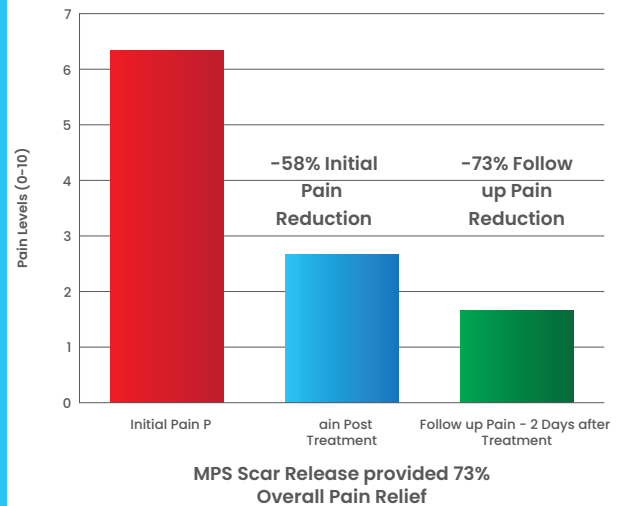

Applying MPS through scars re-establishes metabolism, releasing fascia, stress & pain.

Scars have systemic influence on chronic pain! Science now reports 90% of pain caused by scars is located distally. Scars & traumas play a significant catalytic role in the current chronic pain crisis throughout the USA. Research reports 73% pain relief after MPS-Scar Release (JCNB).

**If you're not treating scars, HOW are you treating pain?**

MPS Scar Release: Pre-Post -48 Hrs N=51

Pain Location	Total No. 51	Percentage 100%
Back	20	39.2%
Neck	9	17.6%
Shoulder	8	15.6%
Hip	4	7.84%
Finger/Hand	3	5.88%
Abdomen	3	5.88%
Arm	1	1.96%
Knee	1	1.96%
Scapula (shoulder)	1	1.96%
<b>Total</b>	<b>51</b>	<b>100%</b>

Scar Location	Total No. 51	Percentage 100%
Abdomen	31	60.70%
Knee	8	15.6%
Hernia (abdomen)	3	5.88%
Ankle	3	5.88%
Breast	2	3.9%
Neck	2	3.9%
Wrist/Hand	2	3.9%
<b>Total</b>	<b>51</b>	<b>100%</b>

# Abdominal Scars are Very Toxic

Scars and trauma are now known to affect stress, fascia and form adhesions, all of which cause pain & disease. C-Sections are often the worst systemic agonists for pain due to their central core location.

In C-Section research collected, abdomen pains accounted for less than (<10%) of pain reported by patients. **Back, hip, neck and shoulder accounted for 67.5% of pain**

Applying MPS through scars re-establishes metabolism, releasing fascia, stress & pain.

NEW research proves C-Section release can provide substantial pain relief, regardless of location, reducing pain 82% after a single MPS application.

**If you're not treating scars, HOW are you treating pain?**

# Diabetic Foot after Abdominal Scar Release

**MPS Applied to C Sections:  
Pre-Post Followup Pain N=47**

**MPS Applied C Sections Reduced Pain 67.5% Post & 82.2% two Days Later**

C-section Pain Location	Total No. 47	Percentage 100%
Back	10	21.0%
Back Thoracic	3	6.3%
Shoulder/ Scapula	9	19.0%
Neck	5	10.6%
Hip	5	10.6%
Abdomen	5	10.6%
Knee	3	6.3%
Headache	2	4.2%
Feet	2	4.2%
Pubic	2	4.2%
Fibromyalgia	1	2.1%
<b>Total</b>	<b>47</b>	<b>100%</b>

# MPS Pain Therapy

## A NEW approach to Treating Pain & Stress

MPS Therapy is a scientifically documented breakthrough for the treatment of pain and stress. By combining proven stress relief of MPS with outside-the-box therapeutic protocols, MPS can produce superior outcomes other approaches can only dream of. MPS is ushering a new era for human health and healing. Learn how to reduce pain & stress in just one weekend!

### MPS Scar Therapy

An Evidenced-Based Pain Seminar

**2 Days Only \$399.00**

To Register:  
[www.MPScourses.com](http://www.MPScourses.com)

CE Credits Available to:  
PT/PTA, OT/OTA, LMT, AC  
Call for Details

### Other MPS Seminars:

Introductory Pain Therapy - \$299.00

Shoulder-Knee-Jaw Circuits - \$399.00

Auricular EAR therapy - \$399.00

Women's Health - \$299.00

Concussion/Brain Health - \$999.00
