Informed Consent Chiropractic Treatment

The Doctor will use their hands or mechanical device to move your joints. You may feel and or hear a "click" and you may feel movement of the joint. Various ancillary procedures, such as hot or cold packs, electric muscle stimulation, therapeutic ultrasound, soft tissue therapies, exercise instructions, and/ or acupuncture may be recommended or also used. I understand and am informed that, as in the practice of medicine, in the practice of chiropractic there are risks to treatment, including but not limited to soreness, fractures, disc injuries, strokes, dislocations, and sprains. I do not expect the doctor to be able to anticipate and explain all risk and complications, and I wish to rely upon the doctor to exercise best judgment during the course of the procedure which the doctor feels at the time, based upon the facts then known to her or him, I in my best interest. I understand that methods of treatment include, but are not limited to, electrical stimulation, x-ray, Graston, and nutritional counseling. I have been informed that Graston is a generally safe method of treatment, but that it may have some side effects, including but not limited to: bruising, tenderness or tingling near or on the soft tissue site that may last a few days. I understand that while this document describes the major risks of treatment, other side effects may occur. The nutritional supplements (which are from plant, animal, and mineral sources) that have been recommended are traditionally considered safe, although some may be toxic in large doses. I understand some supplements may be contraindicated during pregnancy. Some possible side effects of taking supplements are nausea, gas, stomachaches, vomiting, headaches, diarrhea, rashes, hives, and tingling of the tongue. I will notify a clinic staff member who is caring for me if I become pregnant.

Risks or remaining untreated:

Delay of treatment allows formation of adhesions, scar tissue, and other degenerative changes. These changes can further reduce skeletal mobility, and introduce chronic pain cycles. It is probable that the delay of treatment could worsen the condition and make further rehabilitation more difficult. I hereby request and consent to the performance adjustments and other chiropractic, including various modes of physical therapy and diagnostic x-rays on me (or on the patient named below, for whom I am legally responsible) by the doctor of chiropractic named below and/ or other licensed doctors of chiropractic who now or in the future work for the clinic. I have had an opportunity to discuss with the doctor of chiropractic the nature and purpose of the chiropractic adjustments and other procedure. I understand that the results are not guaranteed. I have read, or have had read to me, the above consent. I have also had an opportunity to ask questions about it content, and by signing below I agree to the above- named procedures. I intend this consent to cover the entire course of treatment for my present condition and future condition(s) for which I seek treatment.

Financial Policy

- **Auto Accidents**: In most cases, auto insurance pays for 100% for care related to your auto injury. You must notify your insurance company or agent that you are under care at our office and complete their "Application for Benefits" (filing a claim) immediately. If your policy has a deductible, you will be responsible for paying the amount as services are received unless other arrangements are made with our office.
- **Worker's Compensation**: In most cases, workers compensation insurance pays for 100% for care relates to your injury. You must notify your employer that you are under care at our office immediately. In general, 12 weeks of care is covered, plus 12 additional visits.
- **Medicare;** Medicare pays a portion of the manipulation charge after deductible has been met (Spinal Manipulation Only). Medicare does not pay for examinations, X-rays, physiotherapy, nutritional supplements, exercises, consultations, laboratory tests, or orthopedic exercises.

*Additional Medicare ABN form must be signed.

- **Major Medical**: Your insurance company may deny payment for the service provided to you for the following reason: that particular service is not reasonable and necessary under your insurance company's standards. For this reason, please read and sign the following statement: "I have been informed by my physician that they believe that, in my particular case, my insurance may payment for the services for the reason stated, If my insurance denies payment I agree to be personally and fully responsible for my payment."

Agreement

I have read and understand the above financial policy. I understand that, whether I have insurance coverage or not, I am personally responsible for payment of all services rendered. I hereby consent to examination, x-ray, and treatment if needed. I hereby authorize my attending doctor to release to my insurance company any information concerning my examination and/or treatment. I understand Fit Family Chiropractic/ Moe Chiro Tres PLLC may have a contract with my insurance company that allows only co-pays to be collected at the time of service. By signing this form, I am agreeing to pay my co-pays, deductibles and coinsurance at the time of service. I here assign all benefits paid as a result of claims submitted on my behalf to Moe Chiro Tres PLLC.
