NUTRITIONAL INFORMED CONSENT

According to the Federal Food, Drug, and Cosmetic Act, as amended, Section 201 (g) (1), the term "DRUG" is defined to mean:

"Articles intended for use in the Diagnosis, Cure, Mitigation, Treatment or Prevention of disease."

A Vitamin is not a drug, NEITHER is a Mineral, Trace Element, Amino Acid, Herb, or Homeopathic Remedy.

Although a Vitamin, a Mineral, Trace Element, Amino Acid, Herb or Homeopathic Remedy may have an effect on any disease process or symptoms, this does not mean that it can be misrepresented or be classified as a drug by anyone.

Therefore, please be advised that any suggested nutritional advice or dietary advice is not intended as a primary treatment and/or therapy for any disease or particular bodily symptom.

Nutritional counseling, vitamin recommendations, nutritional advice, and the adjunctive schedule of nutrition is provided solely to upgrade the quality of foods in the patient's diet in order to supply good nutrition supporting the physiological and biomechanical processes of the human body.

Nutritional advice and nutritional intake may also enhance the stabilization of chiropractic adjustments and treatment.

I have read and understand the above.

Insurance Billing

Dr. Dennis M. Mariano and Mariano Holistic Life Center, Inc. are out of network with all insurance companies. While we do not bill your insurance company for you, you are welcome to submit a claim on your own seeking reimbursement. Before you do, please consider the following…

1. If you file a claim with your insurance company, all diagnosis codes and test results will go on file with your insurance company. This can be used to determine future premium costs for you and your family.
2. If your diagnosis includes a hereditary disease like high blood pressure, it will not only be seen on your health records, but also the records for your children and grandchildren and will be used to determine their coverage availability and premium costs.
3. Insurance companies are quick to raise premiums or drop coverage entirely when customers file too many claims, or just one of the wrong kind of claim (like nutritional treatment rather than the medical drug-fix it norm).
4. Your insurance carrier is responsible only for paying benefits covered under your policy and will deny anything they deem “medically unnecessary or experimental”. Nutritional services frequently fall under this category and therefore are not covered which means you are supplying them with diagnosis codes, test results, etc (which they can use against you) yet you see no financial benefit.
5. Rescission – if you have a serious illness, insurance companies will search your file to obtain medical records from the last several years and if they find any inconsistency in your application, your policy is rescinded so they can avoid paying for costly treatments or medication. Any information you share with them could be used against you.
6. Preapproval – if you call your insurance company to find out if certain services are covered, it is a warning sign to your provider that bills are coming which may spark a rescission search on your account.

PATIENT SYMPTOM SURVEY

DATE_____

PATIENT'S NAME_____ ***AGE***_____

WEIGHT_____ ***HEIGHT***_____ ***BLOOD PRESSURE***_____ ***PULSE***_____ ***O_2***_____

This is a confidential patient symptom survey. Please check each condition which is true for you. Take your time. If you are not sure the condition applies to you or do not understand a term, do not check the box. Use common sense. For example, Insomnia once last month probably isn't that important and would not be marked. However, Insomnia 1-2 times per week is notable and would be marked. Please take your time…

Dear Patient:

Enclosed is your Patient Information form and Patient Symptom Survey that must be completed prior to your appointment.

Bring these forms with you to your consultation. Your punctuality on this day will ensure that you have the full time allotted for you to spend with **Dr. Mariano**.

For some patients, we may suggest some specific tests be done. One of these tests is a "Toxic Element Screening". This requires taking hair samples. Prior to taking this sample, you may not perm or color your hair for 8 weeks.

If you have an appointment scheduled for a perm or coloring, you may consider waiting until after your consultation. Please have hair washed. Conditioners, gels and hair sprays are OK.

We may also suggest a blood test for you. This requires a 12-hour fasting. You can only have water for the 12 hours prior to the test. If you think you may do a blood test on the same day as your appointment, please fast for 12 hours and drink plenty of water.

Please note: Lab hours: M-Fr 7:00am-3:00pm. If you are Diabetic or have another medical condition that makes fasting difficult please do not fast, we will take your condition into account with your testing.

Also, if you are scheduled late afternoon for a consult, you can wait until the next morning to get your blood test. We don't want you to go 14 hours or more without eating.

We look forward to seeing you then! If you have any questions, please feel free to call our office.

Yours in good health,

Dr. Dennis M. Mariano, DC, DICCP
