NUTRACEUTICAL

Ultra Vite is:

- A Whole Food Based, High Potency, Multi-Vitamin & Chelated Mineral Complex
- Prolonged Release
- Certified Vegetarian
- Certified Organic
- Sugar & Starch Free
- Truth In Labeling

Why Should I Take Ultra-Vite?

In order for the body to work properly, it is important for it to get the right amount of vitamins, minerals and nutrients. It has been discovered that there are approximately thirteen vitamins that are considered to be “essential” when it comes to the proper functioning of the systems in the body. Without these essential nutrients, your body will suffer in one way or another. Vitamin and mineral deficiencies play a role in a good majority of health problems. Let’s look at how Ultra-Vite (a certified organic, whole food, prolonged release) multivitamin can benefit you.

Why Is The Quality Of Ultra-Vite So Important?

Being designed by doctors, ChiroNutraceutical’s Ultra-Vite was specifically developed to provide you with a high potency supplement that is formulated with a prolonged release delivery system which maximizes absorption and utilization. In addition to vitamins, Ultra-Vite contains chelated minerals and additional support factors including bioflavonoids, rutin, herperdin, Betaine HCL and glutamic acid.

When it comes to nutrition, you really do get what you pay for! When buying a cheaply produced multivitamin, you will not reap much, if any health benefits. You are wasting your money! Ultra-Vite is “Pharma-Made”. The raw materials are quarantined and tested for potency. Once in production, it is tested before, during and after the manufacturing process. This is done to ensure that what’s on the label is in the bottle. (you may be surprised to know that this is not the case with many supplements)

ChiroNutraceutical’s Ultra-Vite is a complete whole food based multi-vitamin and chelated mineral complex that is designed to provide the nutritional requirements your body needs in a convenient prolonged release, all natural, gluten free, vegetarian capsule that is taken in a “One-A-Day” fashion. Ultra-Vite contains NO artificial colors, flavors, or preservative; no wheat, gluten, eggs, peanuts, tree nuts, crustacean shellfish or fish.

Ultra-Vite vs. Others
