

BMMI Eye Mask

BMMI Eye Mask contains two BMMI concentric circle magnets.

It is made of soft comfortable nylon and comes with two elastic straps to secure mask to the face. Ideal for relaxation, stress, sinus problems and headaches.

The facts about magnets:

BMMI is the original magnet manufactured specifically and exclusively for human medical use.

Only BMMI offers concentric circle magnets, providing a unique magnetic field configuration.

This revolutionary patented technology ensures the optimum magnetic field is applied to the affected area.

Magnets are a medically accepted form of therapy for pain and healing.

Features

- BMMI Eye Mask reduces pain
- Accelerate healing
- Improves circulation
- Gauss: 500 per magnet
- Magnetic fields: 2

How BMMI works?

The concentric circle magnetic fields affect the body in two ways:

1. Accelerated healing: The magnetic field causes the blood vessels to dilate, increasing circulation, thus accelerating the natural healing process.
2. Relieves pain: The magnetic field also reduces swelling, a major source of musculoskeletal pain.
