- Asthma, allergies & other immune challenges

BENEFITS OF ADJUSTMENTS

- Adjustments reduce nerve interference (subluxation)
- Immune & digestive function improve
- Growth & development are restored

BENEFITS OF CHIROPRACTIC

Many parents report:

- Improved sleep, digestion & nursing in infants
- Less illness & infections, with more rapid recovery
- Improved behavior, concentration & mood
- Better connection & perception of their environment

SIDE EFFECTS MAY INCLUDE

- Improved posture & coordination
- More favorable report cards
- Improved sports performance
- Happier parents & family

WHEN IS THE BEST TIME TO HAVE MY CHILD CHECKED?

- Immediately or soon after birth in order to ensure proper development
- If they are suffering from any health challenges, have them checked as soon as possible to see if they can be helped naturally and drug-free
