

THE GUT-BRAIN CONNECTION

- Are you interested in learning more about autoimmune illness, anxiety, depression, fibromyalgia and chronic fatigue syndrome?
- Do you want to learn more about mental foginess
- Are you interested in learning more about neurodevelopmental delays in children?
- Are you interested in learning more about how the gut impacts the brain?

At this workshop we share critical information about the gut-brain connection and how the gut impacts the brain.

We will also cover the common threads of autoimmune, neurodevelopmental, neurological and mental health topics such as chronic fatigue syndrome, fibromyalgia, anxiety, depression, ADHD, autism, digestion and related topics.
