- □ Immune disorder or disease
- □ Other:_____

Wellness profile
The human body is designed to be healthy. The primary system which coordinates health is the nervous system which is protected by the spine. Many of the common health challenges that adults experience have their origins in the developmental years of childhood. Traumas, including birth, may lead to dysfunctional movement of the spine which can decrease health. Please answer the following questions to help us determine the signals that may indicate decreased health in your child.

Affinity Chiropractic 830 Klamath Ave., Klamath Falls, OR 97601 ph: 541-887-8555 fax: 541-887-8556

Patient's Name:_____ DOB: _____ Date:_____
