OFFICE POLICIES

Welcome to our office! We are here to enhance your life, help correct the cause of your problems and restore your health. It is our policy to accept only those patients whom we believe we can help, and those who are willing to help themselves by actively participating in their care and following our recommendations. To help you receive the greatest benefits from your care here at our office, please comply with the following...

- A) YOUR CARE PLAN: At your report of findings, the doctor will determine a care plan that best suits your spinal needs. Your office visits are scheduled according to this care plan. The frequency of your visitation schedule is of paramount importance to your results. As such, you must assume the responsibility of strict adherence to your care plan as it is designed for optimum results. Your commitment to keeping your appointments is your part in the correction of your problem and the restoration of your health.
- B) MISSED/CANCELLED APPOINTMENTS: If for any reason, you are unable to keep an appointment, please call as soon as possible to reschedule that visit. It is best to make that appointment up within 24 hours to maintain optimal correction. If you have chosen not to schedule appointments, care will be delivered on a first come first serve basis after those with scheduled appointments. Please remember that it is the frequency of visits that counts, not the days on which you receive them.
- C) HEALTHY LIVING WORKSHOP: The purpose of this workshop is to inform, inspire and empower you to take control of your life and health with 5 key wellness strategies. We have found that patients who attend respond better because they understand the cause of their problem and what we are attempting to do to correct it. Attendance is strongly recommended in order to get the most out of your care and our office.
- D) INSURANCE: The privilege of insurance assignment begins when our office receives your insurance forms.
 - 1. Deductible payments <u>MUST</u> be made prior to insurance submittal.
 - 2. You are considered to be a cash patient until our office "qualifies" your coverage to determine the extent of benefits under your policy.
 - 3. All co-payments are payable when services are rendered or at the end of each week.
 - 4. Should you discontinue care for any reason other than discharge by the doctor, any and all balance due will become immediately payable in full, regardless of any claims submitted.
 - 5. Our office does not promise that an insurance company will reimburse you for the usual and customary charges submitted by this office.
 - 6. Since we do not own your policy, and, occasionally, we experience difficulty in collecting from the carrier, we may ask for your active assistance in rectifying this situation.
 - 7. Ultimately, it is your responsibility to see that your account is paid.

Lastly, it is our goal to provide you with the finest quality chiropractic care available. If you have any questions with regard to your health care, or any of our policies, please let us know.

WELCOME TO OUR PRACTICE!!!

I,	have read and understand the above policies and agree to abide by them.		
Signature	Date	Effective 2/28/2017

The revocation is not effective until it is received by the Privacy Official.

TERMS OF ACCEPTANCE

When a patient seeks chiropractic care and we accept a patient for such care, it is essential for both to be working towards the same objective.

Chiropractic has only one goal. It is important that each patient understand both the objective and the method that will be used to attain it. This will prevent any confusion or disappointment.

Vertebral Subluxation: A misalignment of one or more of the 24 vertebrae in the spinal column which causes alteration of nerve function and interference to the transmission of mental impulses, resulting in a lessening of the body's innate ability to express its maximum health potential.

Adjustment: As adjustment is the specific application of forces to facilitate the body's correction of vertebral subluxation. Our chiropractic method of correction is by specific adjustments of the spine.

Health: A state of optimal physical, mental and social well-being, not merely the absence of disease or infirmity. When a patient seeks chiropractic health care and we accept a patient for such care, it is essential for both to be working towards the same objective.

We do not offer to diagnose or treat any disease or condition other than vertebral subluxation. However, if during the course of the chiropractic spinal examination, we encounter non-chiropractic or unusual findings we will advise you. If you desire advice, diagnosis or treatment of those findings, we will recommend that you seek the services of another health care provider.

Regardless of what the disease is called, we do not offer to treat it. Nor do we offer advice regarding

1	lom. Our only method is specific adjustment to correct vertebral subluxations.
Ι,	have read and fully understand the above statements.
All questions regarding the doctor's complete satisfaction.	objectives pertaining to my care in this office have been answered to my
