**Your Right to Revoke Consent:** You may revoke consent to use or disclose your health information at any time; however, your revocation must be in writing; there are two circumstances under which we will not be able to honor your revocation request: 1) Your health information was released prior to receipt of your request to revoke your consent; and 2) Were you required to give your authorization as a condition for obtaining insurance, the insurance company may have a right to your health information if they decide to contest any of your claims.

**Your Right to Limit Uses or Disclosures:** You have a right to limit the use or disclosure of your personal health information. To do so you must inform us, in writing, of any health care providers, hospitals, employers, insurers or other individuals or organizations that you do not want us to disclose your health information to. We are not required to agree to your restrictions; however, if we agree with your restrictions, the restriction is binding on us.

**Your Right to Receive Confidential Communication Regarding Your Health Information:** We normally provide information about your health to you in person at the time you receive services from us. We may also mail you information regarding your health or about the status of your account. We will do our best to accommodate any reasonable, written request if you would like to receive information about your health or the services we provide at a place other than your home or if you would like the information in a different form.

Your Right to Inspect and Copy Your Health Information: You have the right to inspect and/or copy your health information for seven years from the date that the record was created or as long as the information remains in our files; such requests must be in writing. We may refuse your request, and charge you for retrieval and copying costs, only in accordance with Minnesota law.

**Your Right to Amend Your Health Information:** You have the right to request that we amend your health information for seven years from the date that the record was created or as long as the information remains in our files. Amendment requests must be in writing and give us reason to support the change you are asking us to make; however, the clinic is not obligated to comply with your request if it is judged to be unreasonable.

**Your Right to Receive an Accounting of the Disclosures We Have Made of Your Records:** You have the right to submit a written request for an accounting of the disclosures we have made of your health information for the last six years before the date of your request. By law, such accounting requests will include all disclosures made <u>except</u> for those that: 1) Are required for your treatment, to obtain payment for your services or to operate our practice; 2) Were made to you; 3) We are required or permitted to make without our consent or authorization; 4) Were disclosed with your written consent; 5) Were necessary to maintain a facility directory of individuals involved with your care; 6) Were disclosed for national security or intelligence purpose; 7) Were made to correctional or law enforcement officers; or 8) Were made prior to April 14, 2003.

We will provide the first accounting within any 12-month period without charge. Retrieval and copying fees complying with Minnesota law may be charged for any additional accounting requests during the same 12-month period. When you make your request we will tell you the amount of the fee and you will have the opportunity to withdraw or modify your request.

Our experience has shown that it is wise to have an understanding with our patients as to our office policies and fees. This form has been prepared for your convenience and information. We offer several methods of payment for your needs. This information will enable us to better serve you and help to avoid misunderstandings in the future. Our main concern is your health and well-being, and we will do our best to help you in any way we can. A detailed outline of services charges can be provided upon request.

#### PLAN 1: GROUP INSURANCE

If you have insurance which covers chiropractic or physical therapy, we will bill your insurance directly. Please present your card on your first visit. Until we have the completed necessary information to verify coverage, you will be required to pay for your care. This includes any deductible or co-pay at the time of your service. In the event the insurance check should come to you, you are expected to bring the check in to us. Remember, insurance companies do not guarantee payment. Please know that we will bill the insurance company for all the services provided including but not limited to extremity adjustment, traction, neurological re-education, and soft tissue therapies. If you have questions regarding any of your billing please ask.

#### PLAN 2: HEALTH CARE MADE AFFORDABLE (HCMA)/CASH

For those patients who qualify, we offer discounted cash agreements on a monthly block basis. Please ask for details separate to this professional fee schedule. Fees are to be paid at the time services are rendered, unless special arrangements have been made in advance. Discontinuing care before completing the agreed upon corrective or wellness care plan will cause your plan to be prorated at our regular rates for all visits from the beginning of care.

#### PLAN 3: WORKERS COMPENSATION INJURY

You need to report your injury to your employer and bring in insurance information. Payment for services is required until insurance information is verified. We will bill the insurance company directly.

#### PLAN 5: AUTO/PERSONAL INJURY

You need to report the accident and present your auto insurance card to us on your first visit. Payment will be required until your coverage can be verified. We will bill the insurance company directly.

Insurance verification and authorization is not a guarantee of payment. And I further understand that such payment is not contingent on any settlement, judgment, or verdict by which I may eventually recover said fee. I understand that I may be responsible for any balance that is not paid by insurance. I authorize the Clinic to release any information regarding my treatment to any insurance company in effort to receive reimbursement for services provided. I authorize the use of this signature on all insurance submissions.

I have read and understand all of the options available to me.

# INFORMED CONSENT WAIVER & AUTHORIZATION TO TREAT

When a patient seeks chiropractic health care and we accept a patient for such care, it is essential for both to be working toward the same objective. It is important that each patient understand both the objective and the method that will be used to attain it. This will prevent any confusion or disappointment.

*Adjustment:* An adjustment is the specific application of forces to facilitate the body's correction of vertebral subluxations. Our chiropractic method of correction is by specific adjustments of the spine and joints of the body. *Health:* A state of optimal physical, mental, and social well-being, not merely the absence of disease or infirmity.

*Vertebral Subluxation:* A subluxation is a complex of functional and/or structural and/or pathological articular changes that compromise neural integrity and may influence organ system function and general health.

We obtain the necessary clinical information to establish an accurate impression of the person's health status by utilizing diagnostic and treatment procedures that are supported by the best available evidence, clinical experience or consensusdriven guidelines and are in accordance with legal standards of care. We do not offer advice regarding treatment prescribed by others. However, if during the course of a chiropractic spinal examination we encounter non-chiropractic or unusual findings, we will advise you. If you desire advice, diagnosis, or treatment for those findings, we follow a cooperative patient management with referral to communication and collaboration with other health care providers to ultimately benefit the patient.

#### **Practice Objective**

Our office recognizes and places particular attention on the adjustment, correction and prevention of the subluxation complex by facilitating neurological and biomechanical integrity in the preservation and restoration of your health and wellness.

#### The material risks inherent in chiropractic adjustments

As with any healthcare procedure, there are certain complications which may arise during chiropractic adjustments and therapy. These complications include but are not limited to: costovertebral strains and separations, fractures, muscle strain, cervical myelopathy, and although rare, various vascular injuries. Some patients will feel stiffness and soreness following the first few days of treatment. We will make every reasonable effort during the examination to screen for contraindications to care; however, if you have a condition that would otherwise not come to our attention, it is your responsibility to inform us.

### Informed Consent and Authorization

I, the undersigned, have been informed by the participating treating doctor of Chiropractic (D.C.) that he/she is/are a licensed chiropractor, and having been informed by such Doctor as to the benefits and potential risks of chiropractic and radiological treatment, hereby consent to such treatment. All questions regarding the doctor's objectives pertaining to my care in this office have been answered to my complete satisfaction. I, therefore, accept chiropractic care on this basis.
