

SPINAL NERVE FUNCTION

C2 | Eyes, optic nerves, auditory nerves, sinuses, tongue, forehead, and heart

C3 | Cheeks, outer ear, face, teeth, facial nerve, lungs

C4 | Nose, mouth, eustachian tubes, mucous membranes, lungs

C5 | Vocal cords, neck glands, and pharynx

C6 | Neck muscles, shoulders, and tonsils

C7 | Thyroid gland, bursa in shoulder and elbow

TI | Arms from elbow down, esophagus, trachea, and heart

T2 | Heart, coronary arteries, lungs, and bronchial tubes

T3 | Lungs, bronchial tubes, pleura, chest, breast, and heart

T4 | Gallbladder, common bile duct, heart, lungs, and bronchial tubes

T5 | Liver, solar plexus, blood circulation, heart, esophagus, and stomach

T6 | Stomach, esophagus, peritoneum, and duodenum

77 | Stomach, spleen, pancreas, liver, gallbladder and duodenum

T8 | Spleen, stomach, liver, pancreas, gallbladder, adrenal cortex, small intestine, pyloric valve

T9 | Adrenal cortex, pancreas, spleen, gallbladder, ovaries, uterus, and small intestine

T10 | Kidneys, appendix, testes, ovaries, uterus, adrenal cortex, spleen, pancreas, large intestine

Til | Kidneys, ureters, large intestine, bladder, adrenal medulla, adrenal cortex, uterus, ovaries, ileocecal valve

T12 | Small intestine, lymph, circulation, large intestine, bladder, uterus, kidneys, ileocecal valve

L1 | Large intestine, inquinal rings, uterus

L2 | Appendix, abdomen, upper leg, bladder

L3 | Sex organs, uterus, bladder, knees, prostate, and large intestine

L4 | Prostate gland, muscles of the lower back, sciatic nerve

L5 | Lower Legs, ankles, feet, prostate

Sacrum | Hip bones, buttocks, rectum, sex organs, genitalia, bladder, ureter, and prostate

Coccyx | Anus and rectum
