I had never seen a chiropractor before so I was a bit nervous with the idea of getting adjustments but Dr Aaron made me feel super comfortable. He explained step by step what he was going to do, and he did a serie of examinations to be sure where we needed to focus to work on my back pain. Overall the visit was great and I will be definitely going back!!

Review for Aaron Abplanalp

The office is really lovely. I was greeted right away by Melissa (forgive me if I got your name wrong!), who was friendly and ready for my arrival. She was thorough going over my intake paperwork and also very kind to a patient who came in after me. Dr. Abplanalp was also very friendly and made me immediately feel comfortable; it can admittedly be a little awkward having a stranger poke and prod at you, but he kept me very much at ease. He asked me lots of questions about my concerns, and thoroughly explained the things that he was doing during the exam, and the whys behind my areas of concern. I was altogether very pleased with my visit, and I'm looking forward to going over my treatment plan and getting started!

I like Dr. Aaron Abplanalp allot. I wish he was able to spend more time per patient. I do like very deep adjustments and more time spent massaging the back relieving some tension on trigger points and the back musculature in general would be more appreciated. I wish more physical therapy could be taught and shown to me. I want to be more educated and have that education reinforced on how to take better care of my own health, exercise, and health practices in between my office visits. Also, I wish medicaid would pay for some massage therapy treatment to go along with my chiropractic care at Lifecity Chiropractic. I have less chronic pain, improved stress levels, and improved mobility through going to Lifecity Chiropractic.
