Is there anything else which may h	nelp us to be	tter understand your child	, which has not been disc	ussed?

## **Our Fee Structure**

Consultation	Complimentary
Examination	\$100.00
Infant Exam	\$40.00
Adjustment	\$60.00

Please Note: If you and the provider decide this is the place for your child to be, then your child will receive an adjustment on the first visit which will be an additional fee. The clinical Report of Findings, the time the provider spends with you to go over your child's results will be included with the examination fee. Your child will receive an adjustment after the Report of Findings which will be a separate fee.

## **Insurance and Payment Policy**

We are committed to providing you with the best possible care. If you have Chiropractic coverage in your insurance policy, we are willing to help you receive your maximum allowable benefits. In order to achieve this goal, we need your assistance and understanding of our payment policy.

## **Payment Policy:**

- 1) Full payment is due at the time of service. We accept cash, checks, Visa, MasterCard, and Discover.
- 2) We must emphasize that our relationship is with you and not your insurance company. Your insurance policy is a contract between you, your employer, and the insurance company. We are not a party to that contract; therefore, we do not file your insurance for you. As a courtesy that we extend to our patients, we will provide you with a completed insurance form; however, you are responsible for filing it, which simply means placing it in an envelope and mailing it.
- 3) Not all services are a covered benefit in all contracts. It will depend on your individual policy.
- 4) In most cases, once you have met your deductible your insurance company will begin to reimburse you up to an allowed amount. If you have a question about your specific policy and coverage, please call the toll free number on the back of your insurance card and they should be able to answer your questions regarding your policy.
- 5) Medicare patients are responsible for payment at the time of service because Medicare does not cover in this office. We will not file claims to Medicare. Medicare patients will sign an Advanced Beneficiary Notice of Noncoverage stating that they understand this and they would still like to receive services.
- 6) In the case of a Personal Injury accident (car accident or accident at work), our policy stays the same. Payment will still be required upon time of service. All services received will be at our full price for the duration of the Personal Injury case.

There is no fee for consulting with the doctor. Fees begin when a problem related to nerve interference is found and you begin receiving care.

I fully understand the above fees and give my consent to consult with the providers and to any BioStructural examination that the provider deems necessary. I understand that any fee for service is due at the time of service and cannot be deferred to a later date.

Print Patient Name:	Date:
