Welcome to Hazeldean Family Chiropractic Clinic!

WHAT YOU CAN EXPECT FOR YOUR 1st and 2nd VISITS

YOUR FIRST VISIT – The Initial Consultation and Examination

During your first visit, we will go through a discovery process with you in order to determine the cause of your health concerns.

This will include:

1. A DETAILED HEALTH HISTORY.
2. A THOROUGH SPINAL EXAMINATION by the Doctor to determine any abnormal alignment and motion patterns, and how this is detrimentally affecting the central and peripheral nerve systems and organ function.
3. X-rays, if necessary.

YOUR SECOND VISIT – Doctor's Report

After the initial consultation and examination, your Doctor will arrange for your next visit, which is the Doctor's Report.

The purpose: To review the findings from your consultation and examination, and to discuss if you qualify for structural correction of the spine.

The Doctor will let you know:

1. How much DAMAGE you have in the spine.
2. How this is AFFECTING your health.
3. Whether it is CORRECTABLE or NOT.

If it is correctable, we will then discuss:

1. How LONG it will take to correct.
2. How OFTEN you will need to come in.
3. And the FINANCIAL INVESTMENT required.

The first part of the Doctor's Report will be done via an online video that you and your spouse/significant other/parent (if applicable) will watch at home prior to your next visit. A detailed overview of the corrective work that we do will be explained. The information applies to ALL new patients.

We recommend that your spouse/significant other/parent (if applicable) attend the Doctor's Report with you. Health information can be complicated and your spouse/significant other/parent will need to understand all aspects of your care. Discussions will include: the length of time required for structural correction, the appointment schedule needed, and the financial investment required.

At your next in-office visit, your Doctor will review the results of your examination and x-rays. He/She will let you know if you qualify for structural correction of the spine and, if yes, will outline a plan of care. At that point you will be able to decide how you would like to proceed.

YOU ARE IN EXPERIENCED HANDS. Your health is our #1 priority.

Sincerely,

The Doctors & the Hazeldean Family Chiropractic team
