

TO THE New Patient

OUTLINE OF PROCEDURES FOR CARE

STEP ONE:

All new patients are requested to fill out this personal health history questionnaire.

STEP TWO:

A one-on-one consultation with the doctor will be done to discuss your health problems and to determine what may be the cause.

STEP THREE:

A comprehensive examination and evaluation including those tests necessary to determine the precise cause of your problem is given.

STEP FOUR:

The doctor will advise you if additional laboratory tests or x-rays are needed.

STEP FIVE:

You will be given a Report of Findings at which time the cause of your problem will be discussed. It includes a thorough explanation of

how our treatment works and what results can be obtained. You will also be advised concerning how our office procedures work. If you are accepted for care, treatment will begin.

STEP SIX:

Over the next few visits, treatment will continue as we explain what we are finding. After several visits we will sit down and discuss the care necessary to become as healthy as possible.

STEP SEVEN:

An estimate of the future care that is needed will be given and upon your acceptance, care will continue until the personal maximum correction of your problem has been obtained.

STEP EIGHT:

After maximum correction has been obtained, a schedule of care will be recommended to help prevent future problems and maintain good health.

Notice of Privacy Practices

THIS NOTICE DESCRIBES HOW CHIROPRACTIC AND MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION.
PLEASE REVIEW IT CAREFULLY

The Health Insurance Portability & Accountability Act of 1996 (“HIPAA”) is a federal program that requires that all medical records and other individually identifiable health information used or disclosed by us in any form, whether electronically, on paper, or orally, are kept properly confidential. This Act gives you, the patient, significant new rights to understand and control how your health information is used. “HIPAA” provides penalties for covered entities that misuse personal health information.

As required by “HIPAA”, we have prepared this explanation of how we are required to maintain the privacy of your health information and how we may use and disclose your health information.

In the course of your care as a patient at Princeton Chiropractic, LLC we may use and disclose your personal and health related information for each of the following purposes:

- **TREATMENT** means providing, coordinating or managing health care and related services by one or more health care providers. An example of this would be sending medical information to the referring physician. Your protected health information, including your clinical records, may be disclosed to another health care provider or hospital if it is necessary to refer you for further diagnosis, assessment or treatment or to keep your Primary Care Physician abreast of your condition and progress while under care in this office.
- **PAYMENT** means such activities as obtaining reimbursement for services, confirming coverage, billing or collection activities, and utilization review. An example of this would be sending a bill and/or chart notes for your visit to your insurance company for payment.
- **HEALTH CARE OPERATIONS** include the business aspects of running our practice, such as conducting quality assessment and improvement activities, auditing functions, cost-management analysis and customer service. An example would be sending charts to an insurance network for quality assurance review.

If you are not home to receive an appointment reminder or other related information, a message may be left on your answering machine or with a person in your household. You have a right to confidential communications and to request restrictions relative to such contacts. You also have the right to be contacted by alternative means or at alternative locations.

We are permitted and may be required to use or disclose your health information without your authorization in these following circumstances:

- If we provide health care services to you in an emergency.
- If we are required by law to provide care to you and we are unable to obtain your consent after attempting to do so
- If there are substantial barriers to communicating with you, but in our professional judgement we believe that you intend for us to provide care.
- If we are ordered by the courts or another appropriate agency.

We may also create and distribute de-identified health information by removing all references to individually identifiable information.

We may contact you to provide appointment reminders, reschedule appointments or provide information about treatment alternatives or other health-related benefits and services that may be of interest to you.
