

How a Poopy Diaper Changed my Life... and how it can change yours, too!

Dear Friend,

What you're about to read may surprise you. It might make you mad. You might wonder why no one ever told you this before.

And what I'm about to tell you may actually change your life. For 4 years now, I've been helping people—many folks just like you—who couldn't find help anywhere else. They were frustrated after being told nothing could be done...that they'd just have to 'live with it'.

But there's a different way. And it may be a better way for You. But before I tell you about that, let me give you a little background. It's "my story" ...

Back in Itta Bena, MS I was studying for pre-Med, taking Biology and Chemistry. One day I realized that I did not want to deal with blood, so I start looking for a different way to serve people and help them stay healthy.

Not long after that, a man named Malcolm comes and speaks to our class about Chiropractic: helping people stay healthier from the Inside-Out (with no blood!), which sounds great to me.

I'd never seen a chiropractor before and didn't know much about it.

So, I go visit a local chiropractor, who also happens to be named Dr. Kenya G. I witness many patients that day come in, receive care, and leave with some sort of relief. The patient that stands out the most is a little baby, who had been constipated for few days...and frankly, I'm confused: 'what does the back have to do with constipation? Why would the mom bring this baby to a chiropractor?'

But That Wasn't the End of It
Then Dr Kenya G explains that

the digestive system is controlled by the Brain and Nervous System. She says that misalignments in the neck and/or hips can cause problems the tummy and bowels (colic, diarrhea, constipation) and even the bladder (like bedwetting, etc.)

The Better Way Revealed

She examines the baby, finds some misalignments in

Dr. Kenya and her son, Dawsyn

their body and gives a gentle adjustment. From my view, it looked as if she was barely touching the baby in different spots on their body. To my—and Mom's—surprise, the baby poops right there on the table! (but Dr Kenya G isn't all that surprised, because she sees it a lot...but it never gets routine)

At that moment, I knew I wanted to help children and families like that by being a Chiropractor.

Today, I practice at Madison Family Chiropractors with two friends of mine, Dr. Vince Campbell and Dr. Elise Faust. Our staff is friendly and helpful, and we love what we do.

People from Madison and the surrounding area come to see us about their children's health.

But, they also come to us with their:

- Headaches
- Neck Pain
- Shoulder/Arm Pain
- Asthma/Allergies
- Digestive Problems
- Back pain/Sciatica

Just to name a few...

Here's how we're helping some of your neighbors — after just six visits:

- "More energy, fewer headaches"
- "Lower back improvement, hip getting better"
- "Feel looser, can breathe easier"

But I can't take the credit...

Here's the most important thing I have to say: Your body is made to heal itself, and it does that best when it's free from nerve interference. So, as much as I'd like the credit, I can't take it. **Fact is, I've never healed anyone of anything.** I analyze the nervous system and the spine and make specific spinal adjustments to remove nerve pressure. The body responds, and usually it heals itself. **YOU** do all the hard work.

My Gift to You...

I may not be able to guarantee

a miracle (which Doctor can, anyway?). But I CAN offer you this gift: Our **New Patient Introduction**—including your consultation, exam, and your first adjustment--everything you need to get started--for **only \$97**.

No other hidden fees. No contracts. No scolding. Nothing standing in the way of You and your chance for better Health.

Our goal is to give you the best care we possibly can...you decide how much you want. You'll get great care at a great fee. I'm making this special offer to help more people who need care. Our office is friendly and warm. Dr. Vince, Dr. Elise, and our Office Manager, Colleen, always try our best to help you feel at home.

Our office is called **MADISON FAMILY CHIROPRACTORS**, and we're located at 1163 Eatonton Road in Madison (next to Happy China).

Our phone number is (706) 342-7115. Call Colleen today for an appointment. We can help you. Thank you and God Bless.

Kenya Davis

Doctor of Chiropractic

P.S. I suffered with bad migraines throughout high school and college before Chiropractic found me. We can help.

P.P.S. by Federal Law, this offer is not valid to Medicare patients... but we still love to take care of patients of ALL ages—from newborns to great-grandparents.
